## Odoo Product Lifecycle & Store Operations Manual

End-to-end training guide for product data, purchasing, inventory, POS, eCommerce, replenishment, and reporting

**Portfolio Edition | Odoo test environment**

Version 1.0 | August 2026

# About This Manual

This manual explains the complete product lifecycle in Odoo for KVS Cash & Carry, from source data to purchasing, stock control, sales, and reporting.

## Training example

- Product: Ching's Secret Dark Soy Sauce, Bottle 210g
- Barcode: 8901595862726
- Internal Reference / External ID: ASIA-1003
- Vendor: Training Vendor

## Product Lifecycle at a Glance

Follow the same eight-step cycle for every stocked product:

1. Capture the source data and product image.
2. Create or verify the product record in Odoo.
3. Create and confirm the supplier order.
4. Receive the batch, assign the lot and expiry, and validate the receipt.
5. Print shelf labels using the approved template.
6. Sell through POS or the website and complete fulfilment.
7. Maintain reordering rules to prevent stock-outs.
8. Count, scrap, and report stock so Odoo matches the shelf.

## Publication note

This manual documents a complete workflow in a non-production test environment. Names, order values, and transaction references are illustrative; personal details have been anonymized for publication.

- Receiving stock changes the on-hand quantity.
- The vendor bill records the financial obligation to the supplier.
- A validated POS or website fulfilment reduces stock.
- Reordering rules, counts, scrap, and reports keep Odoo aligned with the shelf.

# Step 1 - Capture Product Information

## Purpose

Before Odoo can work reliably, the product information must be complete, consistent, and checked.

The Excel master prepares controlled product data; Odoo is the live operating system for the shop.

## 1.1 Save the Product Image

### What this means

The product image is not stored inside the Excel import file. It must be saved separately in the Images folder, then uploaded to the product in Odoo.

### Where to go

Open this folder in Windows:

KVS DATABASE\Images

### What to do

1. Open File Explorer.
2. Go to the KVS DATABASE folder.
3. Open the Images folder.
4. Save the product image there.
5. Use a clear file name.

Example:

Chings\_Dark\_Soy\_Sauce.jpg

### What to check

- The image is clear.
- The product is visible.
- The file is inside the Images folder.
- The image belongs to the correct product.

## 1.2 Fill the Product Excel Master

### What this means

The Excel master is the main product data sheet. It holds the fields that can be imported into Odoo.

### Where to go

Open:

KVS DATABASE\KVS\_Product\_Database\_FINAL.xlsx

### What to do

1. Open the Excel file.
2. Search for the product barcode or External ID.
3. For this example, search ASIA-1003.
4. Check the row for the product.
5. Fill every required field before importing or updating Odoo.

**Required fields**

These fields must be correct:

- Barcode
- Name
- External ID
- Tracking
- Sales Price
- Cost
- Product Type
- Unit
- Product Category
- Point of Sale Category
- To Weigh with Scale
- Sales Tax
- Purchase Tax
- Website Product Category
- eCommerce Description
- Show Available Quantity
- Custom Lot/Serial
- Sell when Out of Stock

**Reference-only fields**

These are useful for your planning, but are not imported as operating fields:

- Margin (copy the approved formula from an existing product row)
- Main Category

**What to check for ASIA-1003**

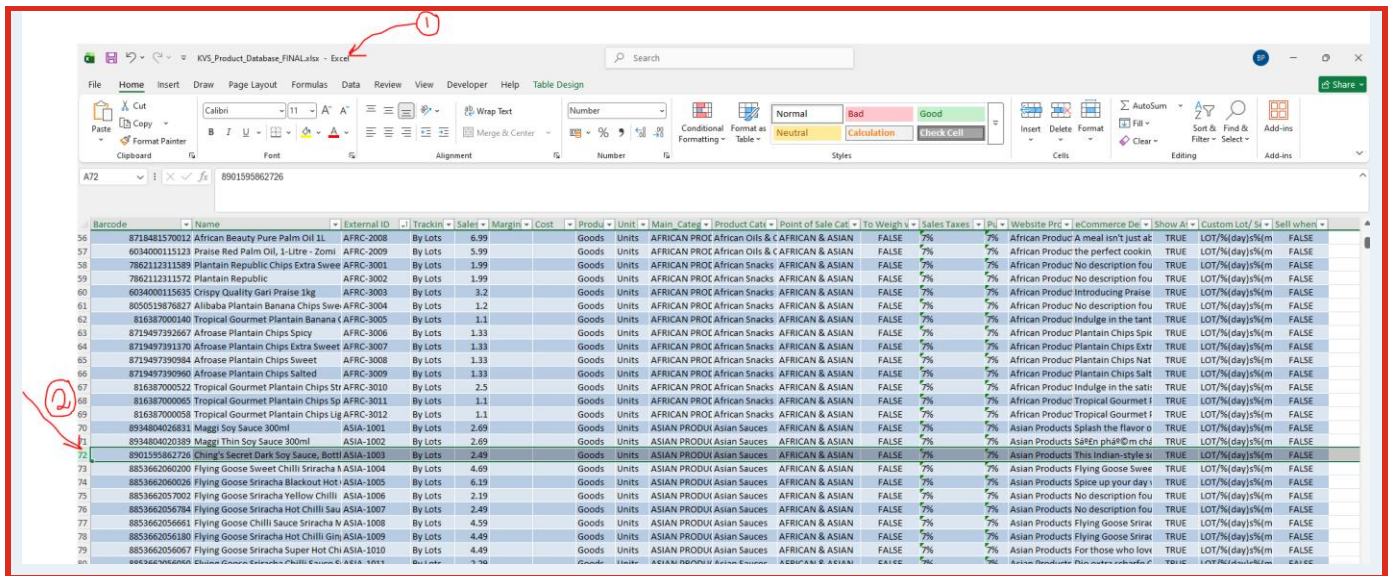

- Barcode: 8901595862726
- Name: Ching's Secret Dark Soy Sauce, Bottle 210g
- External ID: ASIA-1003
- Tracking: By Lots
- Sales Price: 2.49
- Cost: 1.80
- Product Type: Goods
- Unit: Units
- Product Category: Asian Sauces
- Website Category: Asian Products
- Custom Lot/Serial prefix: LOT/ (this controls the naming pattern; it does not create the lot itself)
- Sell when Out of Stock: should normally be off

**Barcode warning**

Barcode must stay as a normal 13-digit number.

Correct:

- 8901595862726

## 1.3 Check Categories and External ID

### Why this matters

Categories and the External ID are key controls for consistent imports, navigation, and reporting.

If they are wrong, the product can end up in the wrong POS category, wrong website category, wrong stock reporting group, or wrong import update record.

### Where to go

Open:

KVS DATABASE\KVS\_CATEGORIES.xlsx

### What to do

1. Open the Categories Excel file.
2. Check Inventory/Product Category.
3. Check POS Category.
4. Check Website Category.
5. Make sure the names match the product Excel row.
6. Only create a new category if the correct one does not already exist.

### Rule

Search first; create a new category only when no approved match exists.

Do not create duplicate categories with slightly different spelling.

Bad examples:

- Asian Product
- Asian Products
- ASIAN PRODUCT
- Asia Products

These look similar to a human, but Odoo treats them as different categories.

## Step 2 - Create or Verify the Product in Odoo

### Purpose

The Excel master does not contain every operating field. Verify the remaining details directly in the Odoo product form.

### Where to go

1. Open Odoo.
2. Click the Inventory app.
3. Go to Products.
4. Click Products again.
5. Use the search bar at the top.
6. Search by barcode 8901595862726 or reference ASIA-1003.
7. Open the product.

The screenshot shows the Odoo Product form for 'Ching's Secret Dark Soy Sauce, Bottle 210g'. The interface includes a top navigation bar with tabs for Inventory, Overview, Operations, Products, Reporting, and Configuration. A status bar at the top displays various metrics: 93 Units (93 Forecasted), 0 Documents, 96 Units (0 Incoming), 15 Units (0 Outgoing), and inventory levels (Min: 5.00, Max: 24.00, In: 4, Out: 6). The product name is 'Ching's Secret Dark Soy Sauce, Bottle 210g'. The form is divided into several tabs: General Information, Attributes & Variants, Sales, Point of Sale, Prices, Purchase, Inventory, Accounting, and eCommerce. The 'General Information' tab is active, showing fields for Product Type (Goods), Invoicing Policy (Ordered quantities), Tracking (By Lots), Quantity On Hand (93.00 Units), Sales Price (2.49 € per Units), Sales Taxes (7% x, (= 2.33 € Excl. Taxes)), Cost (1.80 € per Units), Purchase Taxes, Compare to Price (0.00 €), Base Unit Count (0.21 kg, (11.86 €/kg)), Category (ASIAN PRODUCTS / Asian Sauces), Reference (ASIA-1003), and Barcode (8901595862726). An 'INTERNAL NOTES' section at the bottom contains a placeholder text: 'This note is only for internal purposes.' On the right side, there are buttons for 'Send message', 'Log note', and 'Activity', and a chat window with a placeholder text: 'The conversation is empty'.

## 2.1 Upload the Product Image

### What to do

1. Open the product form.
2. Look at the top-left image area.
3. Click the image area or camera/edit icon.
4. Choose the image file from the Images folder.
5. Save the product.

### What to check

- The image appears in the product form.
- It is the correct product.
- It is not blurry or cropped badly.

### Why it matters

This image can appear in POS, website, product views, and internal product screens.

## 2.3 Sales Tab

### Where to click

Click the Sales tab in the product form.

### What to check

Check Product Packagings.

For ASIA-1003, the example showed:

- Packaging: Pack of 20

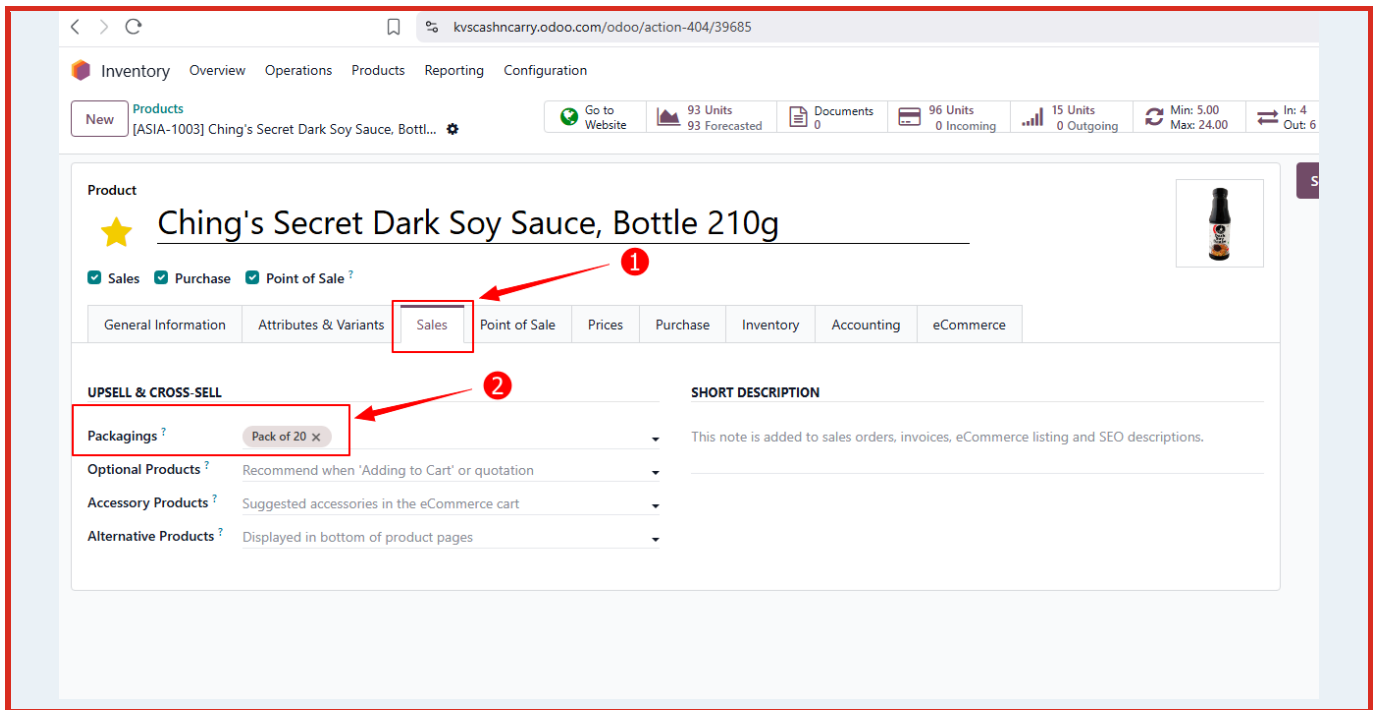

### What this means

Packaging helps Odoo understand how products are grouped for sale or display.

### What to do

1. Open the Sales tab.
2. Scroll to Packagings.
3. Check if the packaging line exists.
4. If missing, add a line.
5. Save.

## 2.4 Purchase Tab

### Where to click

Click the Purchase tab in the product form.

### What to check

Check the vendor line:

- Vendor Name
- Quantity
- Unit
- Unit Price
- Lead Time

For ASIA-1003, the vendor line used:

- Vendor: Training Vendor
- Quantity: 1.00
- Unit: Pack of 24
- Unit Price: 40.00
- Lead Time: 7 days

### Why it matters

When you create an RFQ, Odoo can automatically use the correct vendor, pack size, price, and lead time.

### What to do

1. Open Purchase tab.
2. Check vendor line.
3. If vendor is missing, click Add a line.
4. Select the vendor.
5. Enter quantity, unit, price, and lead time.

## 6. Save.

## 2.5 Inventory Tab

### Where to click

Click the Inventory tab in the product form.

### What to check

1. Tracking must be set to 'By Lots' on the General Information tab.
2. Enable Expiration Date for products that expire.
3. Enter the default expiration period. Odoo applies it whenever the product is received, but the expiry date can be adjusted for a specific batch.
4. Enter the alert period.
5. Enter the Custom Lot/Serial prefix.

For ASIA-1003:

- Tracking: By Lots
- Expiration Date: enabled
- Expiration Date: 500 days after receipt
- Alert Date: 60 days before expiration
- Lot prefix: LOT/%(day)s%(month)s%(y)s/

### Why it matters

Lots allow the shop to know which delivery a product came from and when it expires.

## What to do

1. Open Inventory tab.
2. Set Tracking to By Lots.
3. Enable Expiration Date.
4. Enter expiration days.
5. Enter alert days.
6. Save.

The screenshot shows the Odoo Product form for 'Ching's Secret Dark Soy Sauce, Bottle 210g'. The form is divided into several tabs: General Information, Attributes & Variants, Sales, Point of Sale, Prices, Purchase, Inventory, Accounting, and eCommerce. The 'Inventory' tab is selected and highlighted with a red box and a red arrow labeled '1'. Below the tabs, the form is organized into sections: LOGISTICS, TRACEABILITY, COUNTERPART LOCATIONS, DATES, DESCRIPTION FOR RECEIPTS, and DESCRIPTION FOR DELIVERY ORDERS. In the TRACEABILITY section, the 'Valuation by Lot/Serial' checkbox is checked, and the 'Origin of Goods' dropdown is set to 'Custom Lot/Serial' (labeled '2'). The 'Expiration Date' checkbox is checked (labeled '3'). In the DATES section, the 'Expiration Date' is set to '500 days after receipt' (labeled '4'), the 'Best Before Date' is '0 days before expiration date', the 'Removal Date' is '0 days before expiration date', and the 'Alert Date' is '60 days before expiration date' (labeled '5').

## 2.6 eCommerce Tab

### Where to click

Click the eCommerce tab in the product form.

### What to check

1. Published: on if the product should appear online.
2. Website Product Category: correct category for the online shop.
3. eCommerce Description: customer-facing description.
4. Show Available Quantity: on if customers should see stock.

5. Sell when Out of Stock: normally off.

## Offer products

If the product is part of an offer, add all needed website categories, for example:

- Weekly Offer
- Festival Offers
- Asian Products

The screenshot shows the Odoo Product form for 'Ching's Secret Dark Soy Sauce, Bottle 210g'. The form is divided into several sections: SHOP, INVENTORY, LONG DESCRIPTION, and MEDIA. Annotations 1 through 7 highlight specific fields and sections:

- 1**: Points to the product image in the top right corner.
- 2**: Points to the 'Published' toggle switch in the SHOP section.
- 3**: Points to the 'Categories' dropdown menu in the SHOP section.
- 4**: Points to the 'Sell when Out-of-Stock' checkbox in the INVENTORY section.
- 5**: Points to the 'Show Available Qty' checkbox (set to 'Below 5') in the INVENTORY section.
- 6**: Points to the 'Add Media' button in the MEDIA section.
- 7**: Points to the 'Long Description' text area in the LONG DESCRIPTION section.

The form includes various tabs at the top: General Information, Attributes & Variants, Sales, Point of Sale, Prices, Purchase, Inventory, Accounting, and eCommerce. The eCommerce tab is highlighted with a red box. The SHOP section includes fields for Website Sequence (11,195), Categories (SPECIALTY & INTERNATIONAL / As...), Ribbon, and Tags. The INVENTORY section includes fields for Sell when Out-of-Stock, Show Available Qty (Below 5), and Out-of-Stock Message (e.g., 'Will be back soon'). The LONG DESCRIPTION section contains a text area with the following description: 'This Indian-style soy sauce is made from a mixture of soya beans, chillies, sugar and water, which is then fermented. The end result is a distilled liquid, soy sauce. It can be used as a dipping sauce and a pour-over sauce.' The MEDIA section has an 'Add Media' button.

## Step 3 - Order from the Supplier

### Purpose

This step creates a purchase request to the supplier.

First it is an RFQ, which means Request for Quotation.

After the supplier confirms, it becomes a Purchase Order.

### Where to go

1. Open the Purchase app.
2. Click New.

The screenshot shows the Odoo Purchase app interface. At the top, there are tabs for Purchase, Orders, Products, Reporting, and Configuration. Below the tabs, there are buttons for 'New', 'Upload', and 'Requests for Quotation'. A search bar is also present. The main area displays a summary of purchase requests with the following data:

| Category | New | RFQ Sent | Late RFQ | Not Acknowledged | Late Receipt | OTD  |
|----------|-----|----------|----------|------------------|--------------|------|
| All      | 1   | 3        | 4        | 3                | 0            | 85 % |
| My       | 0   | 3        | 3        | 3                | 0            | 82 % |

Below the summary, there is a table of purchase requests. The first column is 'Reference', the second is 'Vendor', the third is 'Buyer', the fourth is 'Order Deadline', the fifth is 'Activities', and the sixth is 'Total'. The table lists several purchase requests, all from 'KVS Cash & Carry'.

| Reference | Vendor                | Buyer            | Order Deadline | Activities | Total    |

### 3.1 Add Vendor and Product Lines

#### What to do

1. In the Vendor field, select Training Vendor.
2. Select the correct vendor from the dropdown.
3. Go to the product lines area.
4. Click Add a product.
5. Search ASIA-1003 or scan barcode 8901595862726.
6. Select the product.
7. Check quantity.
8. Check unit.
9. Check unit price.
10. Save if needed.

## What to check

For the test RFQ:

- Vendor: Training Vendor
- Product: ASIA-1003
- Quantity: 1.00
- Unit: Pack of 24
- Unit Price: 40.00
- Total: 40.00

The screenshot shows the Odoo 'Request for Quotation' (RFQ) form. The form is titled 'Request for Quotation' and 'New'. It includes a 'Send RFQ' button (annotated with 7) and a 'Confirm Order' button. The form fields are as follows:

- Vendor:** Training Vendor (annotated with 1)
- Vendor Reference:** (empty)
- Payment Terms:** (empty, annotated with 1)
- Order Deadline:** Jul 10, 12:09 AM
- Expected Arrival:** Jul 17, 12:09 AM
- 101% On Time** (status)
- Ask confirmation** (checkbox, unchecked)
- Deliver To:** KVS Cash & Carry: Receipts

The table below shows the product details:

| Product                             | Quantity | Unit       | Unit Price | Taxes | Amount  |
|-------------------------------------|----------|------------|------------|-------|---------|
| [ASIA-1003] Ching's Secret Dark Soy | 1.00     | Pack of 24 | 40.00      |       | 40.00 € |

Annotations on the table:

- 2: Add a product
- 3: Quantity
- 4: Unit
- 5: Unit Price
- 6: Amount

At the bottom, there is a text area for 'Define your terms and conditions ...' and a summary section showing 'Untaxed Amount: 40.00 €' and 'Total: 40.00 €'.

## 3.2 Send RFQ

### What to do

1. Click Send by Email or Send RFQ.
2. Odoo opens an email composer.
3. Check the recipient.
4. Check the email subject.
5. Check that the RFQ PDF is attached.
6. Click Send.

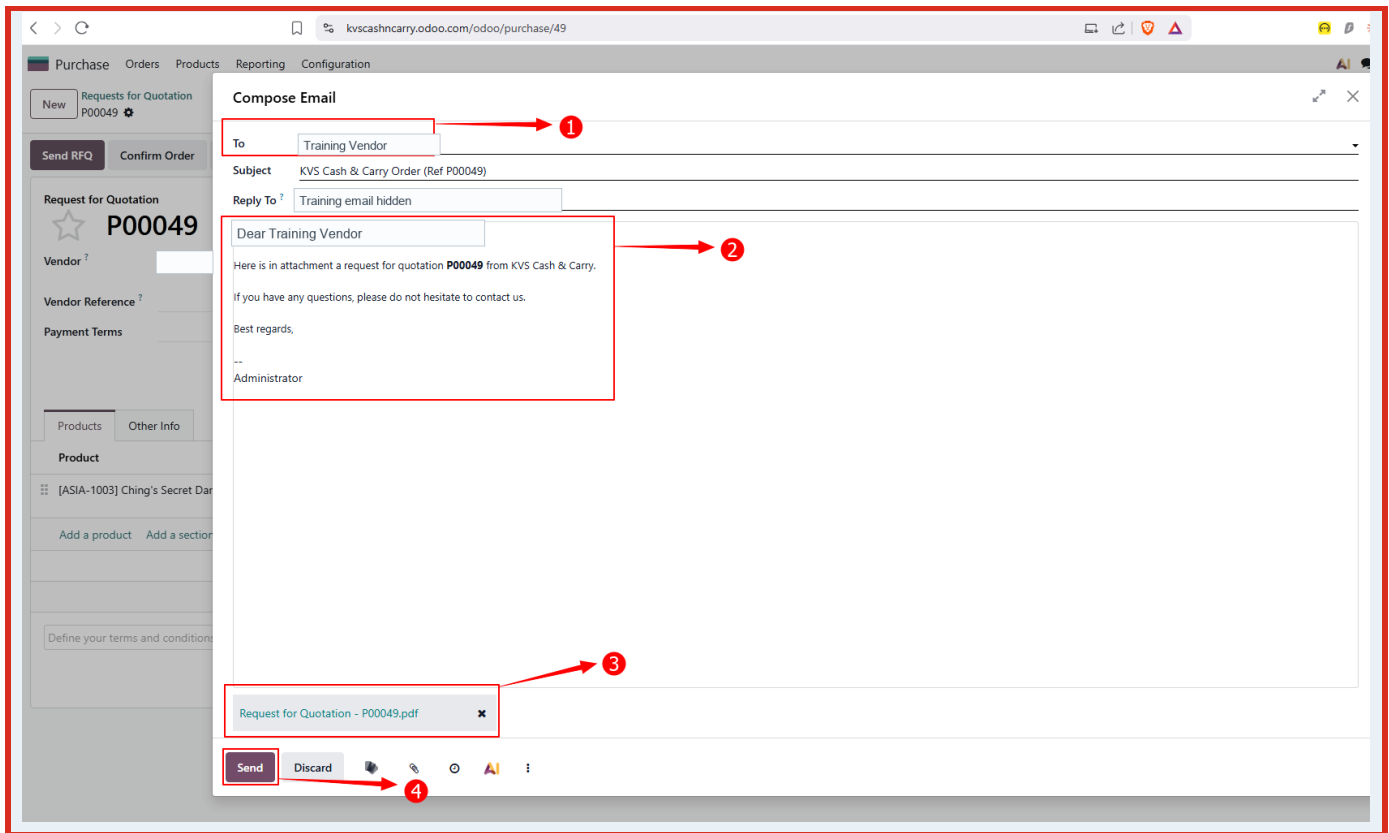

### What happens

Odoo emails the supplier the list of products you want to buy.

### Stop point

After sending the RFQ, wait for supplier confirmation.

Do not click Confirm Order until the supplier has confirmed.

### 3.3 Read the Supplier Confirmation

#### Where to look

Open the RFQ / Purchase Order and look at the bottom message area, called the chatter.

#### What to do

1. Scroll to the bottom of the purchase document.
2. Check the message history.
3. Find the supplier confirmation email.
4. If the bill was sent separately, check that it also appears in the chatter or Documents.

#### Why it matters

The chatter keeps the conversation linked to the purchase order. This makes it easier to prove what was ordered, confirmed, and billed.

The top screenshot shows the Odoo Purchase Order interface for PO0049. The status is 'Request for Quotation'. The vendor is 'Training Vendor'. The order deadline is 'Jul 10, 12:09 AM'. The expected arrival is 'Jul 17, 12:09 AM'. The product is '[ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g' with a quantity of 1.00 and a unit price of 40.00. The total amount is 40.00 €. The 'Confirm Order' button is highlighted with a red circle and arrow.

The bottom screenshot shows the same interface after the order has been confirmed. The status is now 'Purchase Order' and 'RFQ Sent'. The 'Rechnung PDF' (Invoice PDF) is attached to the chat. The 'Confirm Order' button is no longer visible.

### 3.4 Confirm Order

#### What to do

1. After supplier confirmation, click Confirm Order.
2. The RFQ becomes a Purchase Order.
3. Check the status at the top.
4. The Receive button appears.

#### What this means

Now Odoo expects stock to arrive.

## Step 4 - Receive the Batch and Record the Bill

This step has two parts:

- 4a: Receive new supplier delivery.
- 4b: Record old stock already on the shelf.

### Step 4a - Receive a New Delivery

#### Purpose

This brings the ordered stock into Odoo inventory.

Important:

Validating the receipt is what increases stock.

#### 4a.1 Open the Receipt

##### What to do

1. Open the confirmed Purchase Order.
2. Click Receive.
3. Odoo opens the receipt.

##### What to check

Check:

- Product
- Demand quantity
- Done/Quantity quantity
- Unit
- Source document

For the test:

- Receipt: WH/IN/00031
- Product: ASIA-1003
- Quantity received: 24 Units

The screenshot shows the Odoo Purchase Receipt form for 'WH/IN/00031'. The form is titled 'Purchase' and includes tabs for 'Orders', 'Products', 'Reporting', and 'Configuration'. The receipt is for 'Training Vendor' and is scheduled for 'Jul 17, 12:09 AM'. The 'Operation Type' is 'KVS Cash & Carry: Receipts' and the 'Destination Location' is 'WH/Stock'. The 'Source Document' is 'P00049'. The form is in 'Ready' status.

Annotations on the form:

- 5: Points to the receipt number 'WH/IN/00031'.
- 1: Points to the product name '[ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g'.
- 2: Points to the 'Demand' value '24.00'.
- 3: Points to the 'Quantity' value '24.00'.
- 4: Points to the 'Unit' value 'Units'.
- 6: Points to the 'Details' button.

## 4a.2 Open Details and Generate Lots

### Why this matters

Because this product is tracked by lot, assign a lot number before validating the receipt.

### What to do

1. On the receipt line, click the small details/list icon.
2. A details popup opens.
3. Click Generate Serials/Lots.
4. Odoo opens a lot generation popup.
5. Check the first lot number.
6. Check quantity per lot.
7. Check number of lots if shown.
8. Check expiration date.
9. Change expiration date if this delivery has a different expiry.
10. Click Generate.
11. Review the generated line.
12. Click Save.

### What to check

For the test:

- Lot: LOT/050726/0000003
- Quantity: 24 Units
- Expiry: Nov 24, 2027

### 4a.3 Validate the Receipt

#### What to do

1. Return to the receipt screen.
2. Check the product line again.
3. Confirm quantity is correct.

4. Confirm lot exists.
5. Click Validate.
6. Check that the receipt status becomes Done.

### What happens

Odoo increases stock.

For the test, ASIA-1003 increased from 69 units to 93 units.

### Important warning

Do not validate if:

- Quantity is wrong.
- Lot is missing.
- Expiry is wrong.
- Product is wrong.

Fix these first, then validate.

The screenshot shows the Odoo Receipts interface for a new receipt. The top navigation bar includes 'Purchase', 'Orders', 'Products', 'Reporting', and 'Configuration'. Below this, there's a header for 'New Requests for Quotation / P00049' and a sub-header 'WH/IN/00031'. A red box highlights the 'Validate' button, with a red arrow pointing to it and a circled '1'. The interface also shows buttons for 'Print', 'Return', and 'Cancel', and a status bar with 'Draft', 'Ready', and 'Done'. The main form area includes fields for 'Receive From' (Training Vendor), 'Operation Type' (KVS Cash & Carry: Receipts), 'Destination Location' (WH/Stock), 'Scheduled Date' (Jul 17, 12:09 AM), 'Deadline' (Jul 17, 12:09 AM), and 'Source Document' (P00049). Below these fields are tabs for 'Operations', 'Additional Info', and 'Note'. The 'Operations' tab is active, showing a table with columns 'Product', 'Demand', 'Quantity', and 'Unit'. The table contains one row for '[ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g' with a demand of 24.00 and a quantity of 24.00. There are also links for 'Details' and 'Add a Product'.

#### 4a.4 Upload / Create the Vendor Bill

##### Purpose

The bill is the money side. It records what KVS owes the vendor.

This is separate from receiving stock.

##### Normal path

1. Open the Purchase Order.
2. Click Upload Bill.
3. Select the supplier invoice PDF.
4. Let Odoo digitize the document.
5. Review parsed fields.
6. Correct anything wrong.
7. Click Confirm.
8. Check payment status.

##### Alternative: create the bill from Documents

Use Documents:

1. Open the PO chatter.
2. Find the invoice attachment.
3. Add it to Documents / Finance.
4. Open the Documents app.
5. Open the invoice PDF.
6. Click More.
7. Click Vendor Bill.

8. Odoo creates a draft bill.
9. Click refresh / digitize if Odoo says parsed data is ready.
10. Review the bill fields.
11. Click Confirm.

## What to check on the bill

Check:

- Vendor
- Bill Reference
- Bill Date
- Accounting Date
- Due Date
- Product line
- Quantity
- Unit
- Price
- Tax
- Total
- Link to Purchase Order

For the test:

- Bill: BILL/2026/07/0001
- Bill Reference: INV-2026-0001
- Vendor: Training Vendor
- Related PO: P00048
- Amount Due: 40.00 EUR

The screenshot displays the Odoo Purchase Order (PO) form for P00049. The form is titled 'Purchase Order' and includes a star icon and the PO number 'P00049'. The vendor is 'Training Vendor'. The expected arrival date is 'Jul 17, 12:09 AM'. The delivery status is '100% On Time'. The receipt status is 'Fully Received' on 'Jul 10, 12:32 AM'. The table below shows the product details:

| Product                                                | Quantity | Received | Billed Unit     | Unit Price | Taxes | Amount  |
|--------------------------------------------------------|----------|----------|-----------------|------------|-------|---------|
| [ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g | 1.00     | 1.00     | 0.00 Pack of 24 | 40.00      |       | 40.00 € |

The right sidebar shows a chat window with a message from 'Bobby2' confirming the order. The message text is: 'I hereby confirm you the, Order with ref P00049. And ship the goods as soon as possible.' The chat window also shows a file upload icon and a download icon.

The screenshot displays the Odoo POS interface with a file save dialog open. The dialog is titled "kvscashncarry.odoo.com wants to save" and shows the file path: "Projects > KVS POS System > 07\_Database\_Generation > Odoo Import > KVS DATABASE". The "Bills" folder is selected, indicated by a red arrow and the number 2. The file name is "Invoice\_Training\_Vendor.pdf" and the save type is "PDF File (\*.pdf)". The "Save" button is highlighted with a red box and the number 3.

Below the dialog, a table lists the products in the cart:

| Product                                                | Quantity | Received | Billed | Unit       | Unit Price | Taxes | Amount  |

Buttons at the bottom of the table include "Add a product", "Add a section", "Add a note", and "Catalog".

The screenshot shows the Odoo Purchase Order interface for P00049. A red box highlights the 'Upload Bill' button, with a red arrow pointing to it labeled '4'. Below this, the 'Purchase Order' details are visible, including the vendor 'Training Vendor' and the product '[ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g'. A table lists the product with a quantity of 1.00, received quantity of 1.00, and a unit price of 40.00. The total amount is 40.00 €.

A file explorer window is overlaid on the bottom half of the screen, showing the path 'KVS POS System > 07\_Database\_Generation > Odoo Import > KVS DATABASE > Bills'. The file 'Invoice\_Training\_Vendor.pdf' is selected, with a red arrow pointing to it labeled '5'. The file explorer also shows the file name 'Invoice\_Training\_Vendor.pdf' and the file type 'All Files (\*.\*)'.

## Step 4b - Record Old Stock Already on the Shelf

### Purpose

Use this when products are already physically in the shop, but Odoo does not know the correct stock yet.

The goal:

Odoo quantity = shelf quantity.

### Where to go

1. Inventory app.
2. Products.
3. Products.
4. Search or scan product.
5. Open product.
6. Click the number beside Quantity on Hand.

This opens the stock lines / lots view.

### What to do

1. Click New.
2. Select an existing lot or create a new Lot/Serial Number. Odoo generates the identifier from the configured prefix.
3. Review the default expiry date calculated by Odoo, and adjust it for the batch if required.
4. Enter location if needed.
5. Enter quantity.
6. Enter expiry dates if needed.
7. Save.
8. To change an existing lot, click its quantity to open the lot line.
9. Edit the quantity on the correct lot line, then save.

### Rules

Every line is one batch.

If you have three different expiry dates, create three lines.

Example:

- Lot A, 10 units, expires June
- Lot B, 15 units, expires August
- Lot C, 7 units, expires September

### If a lot number is wrong

Do not rename a used lot.

Fix it like this:

1. Set the wrong line quantity to 0.
2. Create a new correct line.
3. Enter the correct lot and quantity.

## What is a lot?

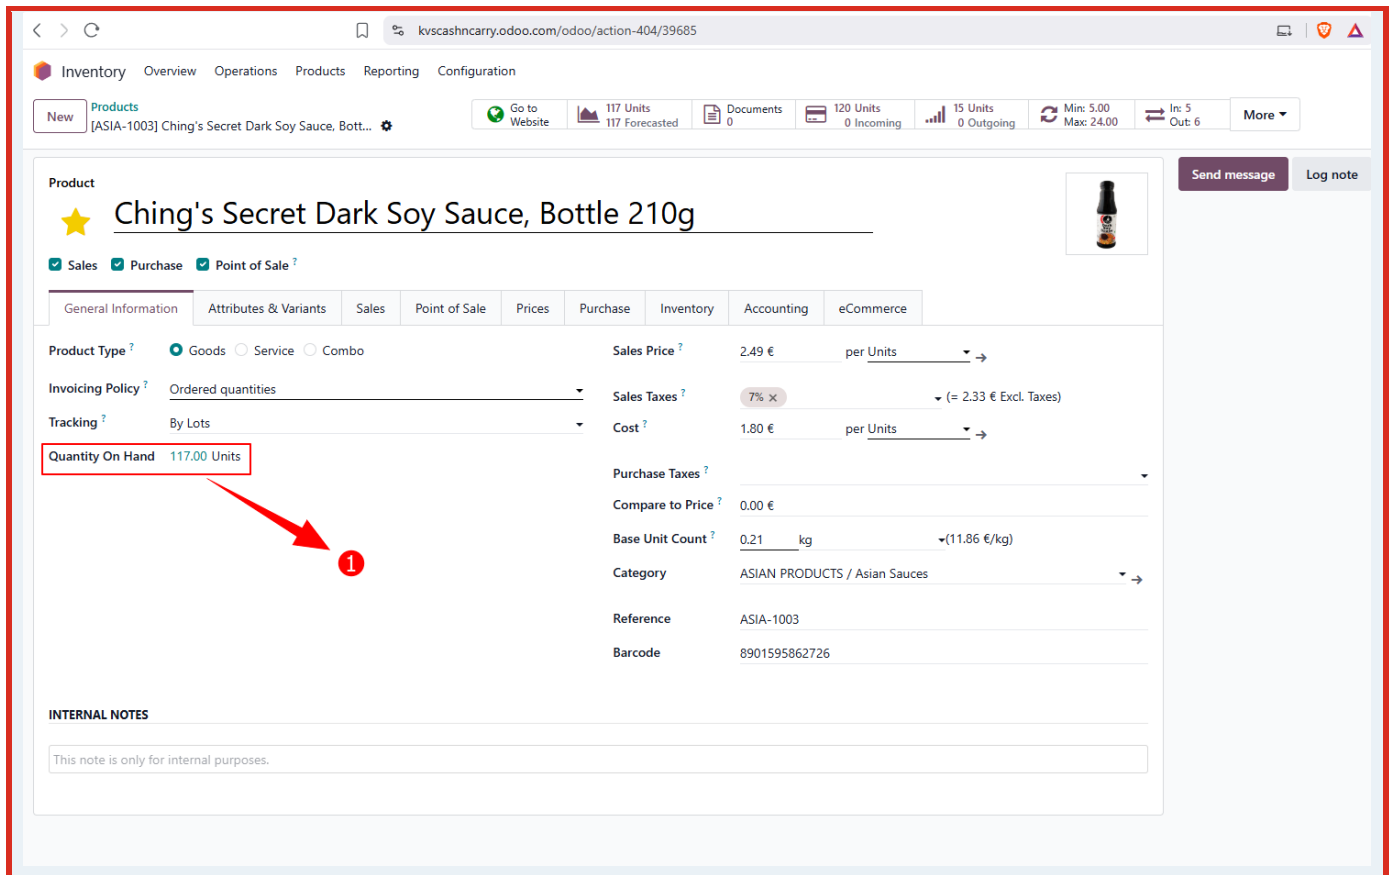

A product is the item on the shelf label.

A lot is one specific delivery or batch of that product.

Same barcode, different delivery, different expiry.

Lots allow:

- FEFO selling
- Expiry checks
- Product recalls
- Stock traceability
- Correct receiving
- Correct old stock entry

The screenshot shows the Odoo Product form for 'Ching's Secret Dark Soy Sauce, Bottle 210g'. The 'Quantity On Hand' is 117.00 Units, highlighted with a red box and a red arrow pointing to a red circle with the number 1. The form includes tabs for General Information, Attributes & Variants, Sales, Point of Sale, Prices, Purchase, Inventory, Accounting, and eCommerce. The 'Product Type' is set to 'Goods'. The 'Sales Price' is 2.49 € per Units. The 'Cost' is 1.80 € per Units. The 'Quantity On Hand' is 117.00 Units. The 'Barcode' is 8901595862726. The 'INTERNAL NOTES' section contains a placeholder text: 'This note is only for internal purposes.'

The screenshot shows the Odoo Stock Locations interface. The breadcrumb trail is: Inventory > Overview > Operations > Products > Reporting > Configuration. The page title is "Products / [ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g Stock Locations". A search bar contains "Internal Locations". A table lists inventory data with columns: Location, Product, Lot/Serial Number, Expiration Date, Removal Date, Inventoried ..., Reserved Qu..., and Unit. The table has 5 data rows and a summary row. A red box highlights the "New" button in the top left. A red arrow points from the "New" button to the "Product" column header, which is labeled with a red circle containing the number 2.

The screenshot shows the Odoo Stock Locations interface. The breadcrumb trail is: Inventory > Overview > Operations > Products > Reporting > Configuration. The page title is "Products / [ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g Stock Locations". A search bar contains "Internal Locations". A table lists inventory data with columns: Location, Product, Lot/Serial Number, Expiration Date, Removal Date, Inventoried ..., Reserved Qu..., Unit, History, and Replenishment. The table has 5 data rows and a summary row. A red box highlights the bottom row of the table. A red arrow points from the red box to the "Product" column header, which is labeled with a red circle containing the number 3.

## Step 5 - Print Price Labels

### Purpose

Price labels help the shelf match Odoo. They should show product name, price, and barcode.

### 5.1 Export Label Data from Odoo

#### Where to go

1. Inventory app.
2. Products.
3. Products.

#### What to do

1. Search or scan the product.
2. Switch to list view if needed.
3. Select the product checkbox.
4. Click Actions.
5. Click Export.
6. In the export window, find the Template field.
7. Choose Regular Product Label 1.
8. Click Export.

For offer labels, choose the offer label template instead.

#### What should happen

Odoo downloads an Excel export file for labels.

The expected file name is:

Regular Product Label.xlsx

It should be saved/replaced in:

KVS Database\Product Labels\Label Templates

## Step 6 - Sell in POS and Online

This step has two parts:

- 6a: Sell in store with POS.
- 6b: Fulfil website orders.

### Step 6a - Sell at POS

#### Purpose

POS is used at the checkout counter.

This is where the cashier sells products, takes payment, prints receipts, refunds orders, and closes the register.

#### 6a.1 Open Register

##### Where to go

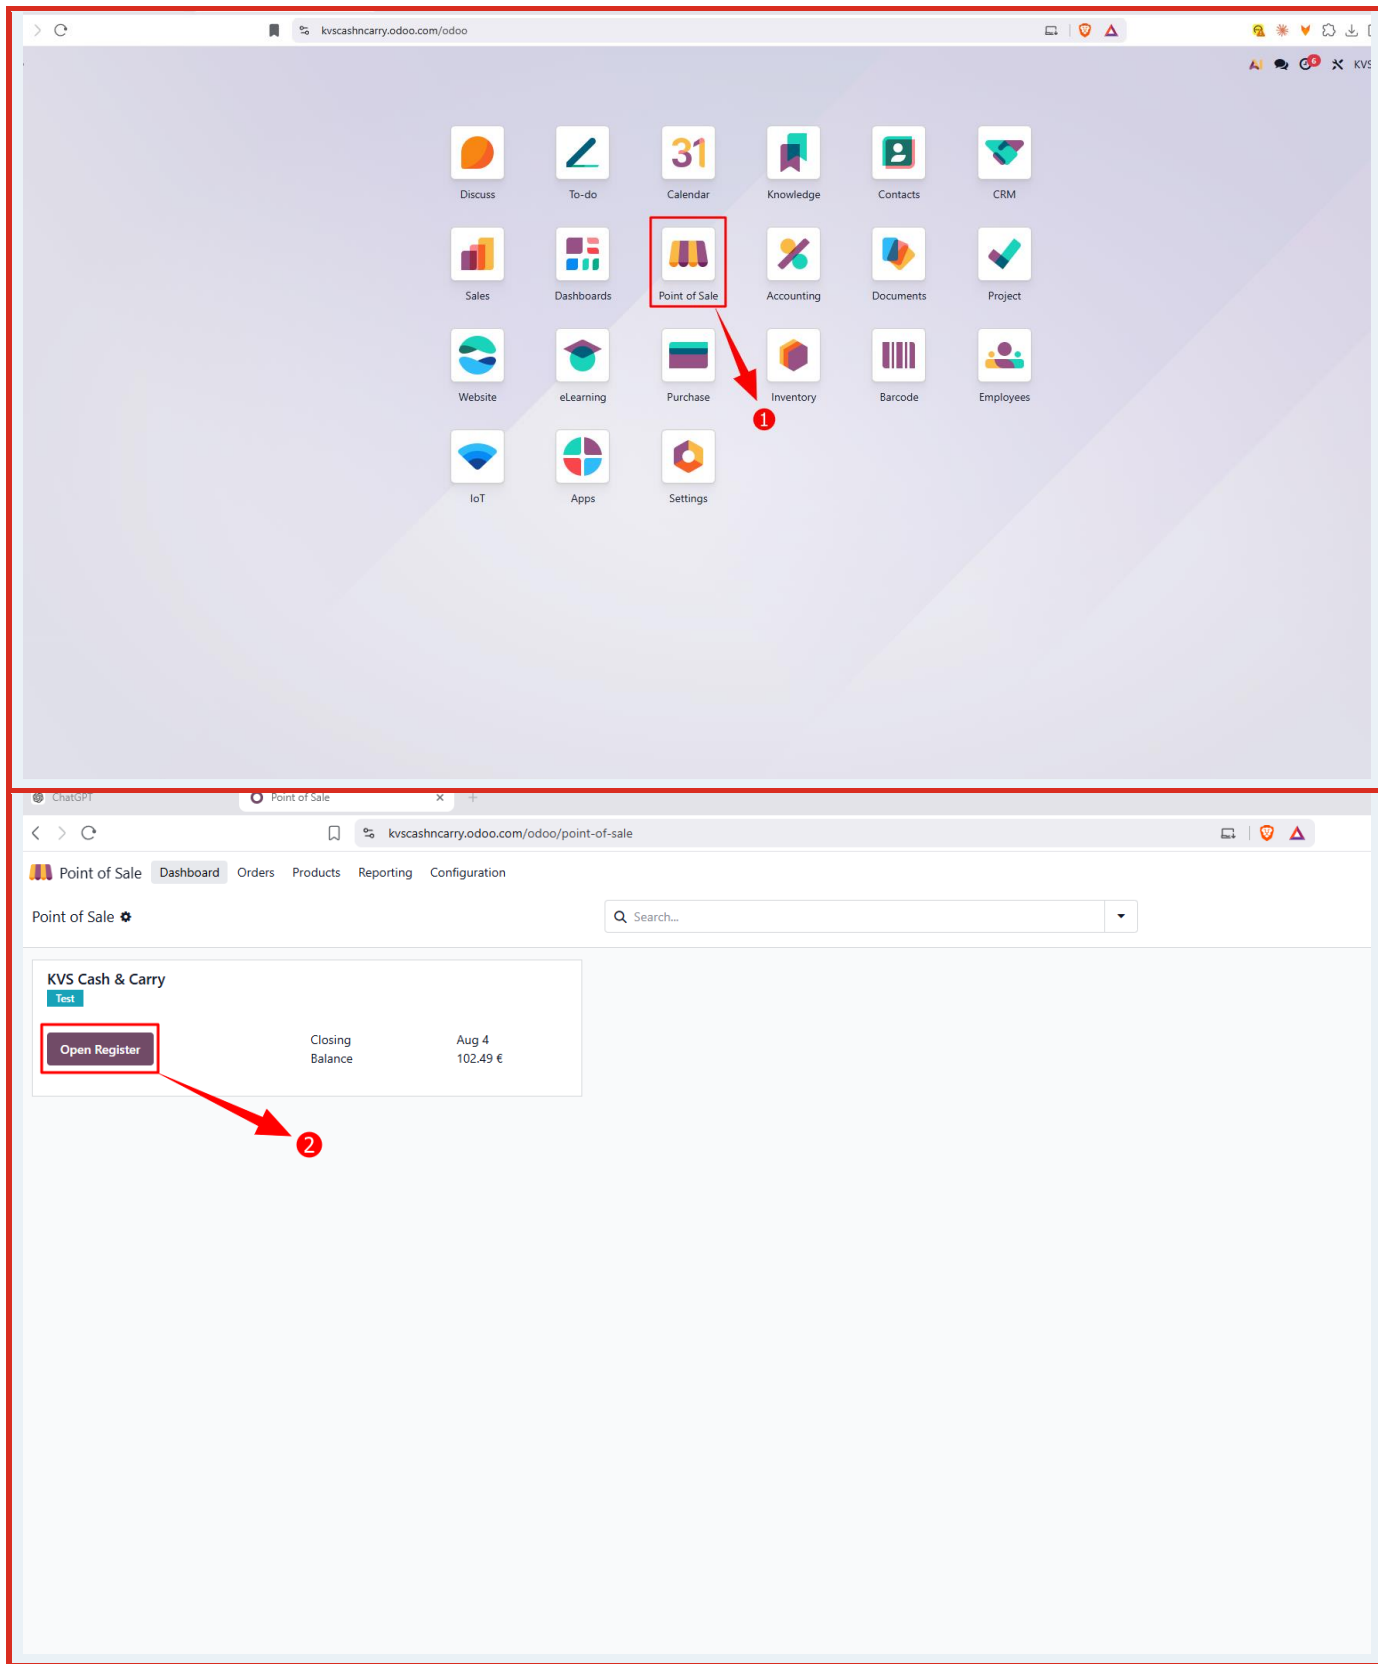

1. Open Odoo.
2. Click the Point of Sale app.
3. Choose the correct POS register.
4. Click Open Register.

##### Opening cash

1. Enter the opening cash amount.
2. Use the bank-note icon when the opening cash must be entered by denomination.
3. Enter exact notes and coins.
4. Confirm opening cash.

##### Why it matters

Opening cash is the starting cash in the drawer. Closing cash is compared against it at the end of the day.

## 6a.2 Sell a Product

### What to do

1. In POS, keep the Register screen open.
2. Scan the product barcode.
3. Or tap/search the product tile.
4. Product appears in the order list.
5. Check quantity.
6. Click Payment.
7. Choose payment method.
8. Enter amount if needed.
9. Click Validate, then continue to the receipt screen.
10. Print receipt if customer wants it.

## What happens

Odoo creates a POS order and reduces stock.

The image shows two screenshots of the Odoo POS interface, illustrating the process of creating a POS order and adding items to the cart.

**Top Screenshot:** The interface shows the 'Register' tab selected. A red box highlights the 'Register' button (1). A search bar at the top right is labeled 'Search products...' (3). Below the search bar, there are category tiles for various product types. A red box highlights the 'Ching's Secret Dark Soy Sauce, Bottle 210g' product tile (2).

**Bottom Screenshot:** The interface shows the 'Register' tab selected. A red box highlights the 'Ching's Secret Dark Soy Sauce, Bottle 210g' product tile (4). Below the product tile, there is a table with columns for 'Customer', 'Note', and 'Qty'. A red box highlights the 'Note' column (5). The table contains the following data:

| Customer | Note | Qty   |
|----------|------|-------|
| 1        | 2    |       |
| 4        | 5    | %     |
| 7        | 8    | Price |
| +/-      | 0    |       |

The total amount is displayed as 2.49 €.

### 6a.3 Register vs Orders

#### Register

Register is where you are currently selling.

Use it for:

- New sales
- Scanning products
- Taking payment

#### Orders

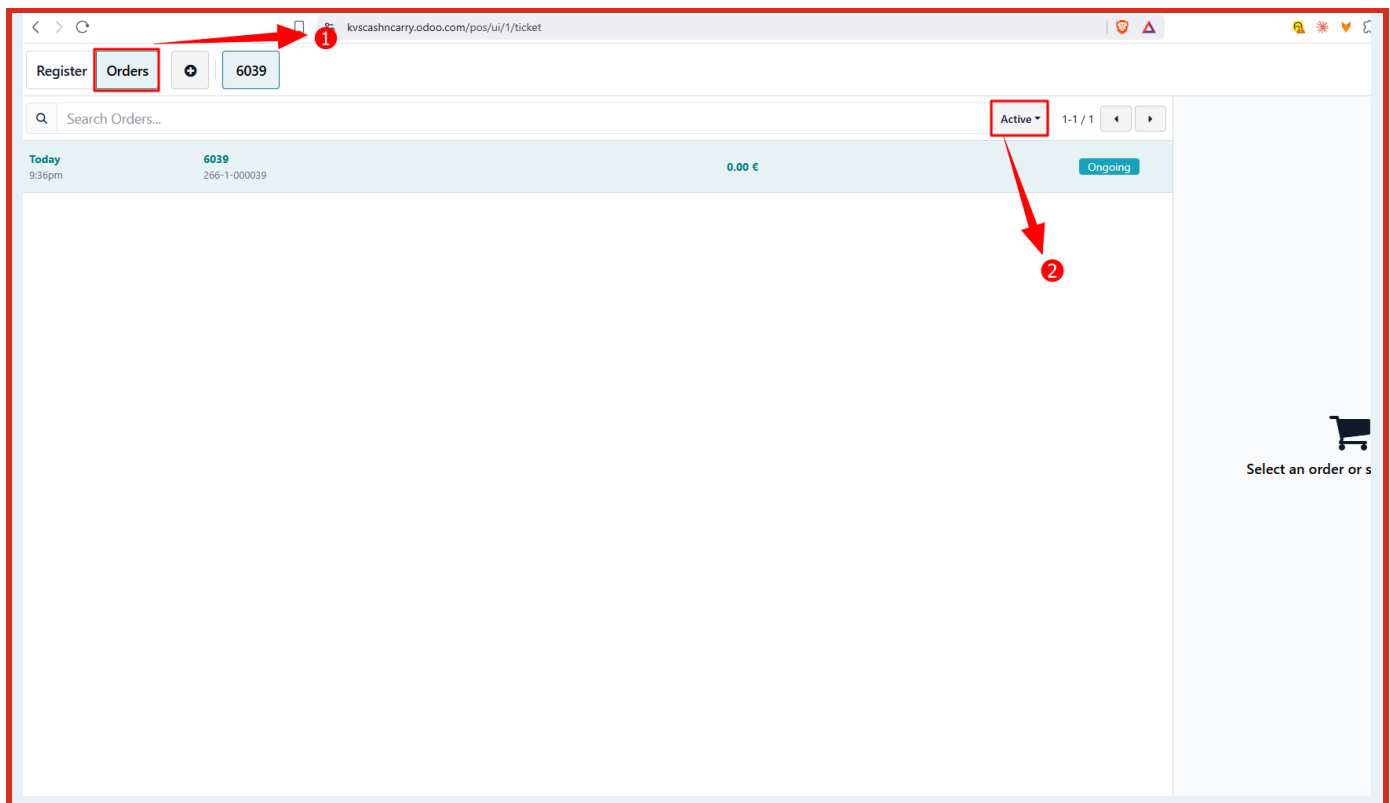

Orders is order history.

Use it for:

- Finding past orders
- Refunds
- Reprinting receipts
- Viewing paid orders

#### What to do

1. Click Register to return to selling.
2. Click Orders to see order history.
3. Use filters like Active or Paid Orders if available.

The screenshot shows the Odoo POS interface for KVS Cash & Carry. The top navigation bar includes buttons for 'Register', 'Orders', and a search bar. A red arrow labeled '1' points to the 'Orders' button. Below the navigation bar is a search bar labeled 'Search Orders...'. To the right of the search bar is a 'Paid' status filter button, highlighted with a red arrow labeled '2'. Below the search bar is a table of transactions. The table has columns for date, time, order number, amount, and status. The transactions are listed as follows:

| Date       | Time    | Order Number                  | Amount   | Status |

3. Click Refund.
4. Select the product to refund.
5. Type quantity on the num pad.
6. Click Refund.
7. Complete refund payment flow.

### Reprint receipt

Open the order and click Print receipt.

### Invoice

Use the invoice option if the customer needs an invoice.

The screenshot shows the Odoo POS interface. On the left, a list of orders is displayed with columns for date, time, order number, amount, and status. The order list includes various dates from 06/29/2026 to 07/05/2026. The right panel shows the details of a selected order (13026) for 'Ching's Secret Dark Soy Sauce, Bottle 210g' with a total of 4.98 €. A red arrow labeled '1' points to the 'Refund' button at the bottom of the right panel. Another red arrow labeled '2' points to the 'Edit Payment' button in the order details section.

## 6a.5 Change Payment Method

### Same session only

If the order is from the same POS session:

1. Open Orders.
2. Open the order.
3. Open Details.
4. Click Edit Payment.
5. Change payment method.
6. Save.

### Different day or closed session

If the session is already closed:

1. Refund the old order.
2. Create a fresh order.
3. Add a note referencing the old order number.

The top screenshot displays the Odoo POS interface with the 'Orders' tab selected. The main area shows a list of orders, including today's orders and historical ones from 2026. On the right, a sidebar menu contains buttons for 'Details', 'Invoice', and 'Print Receipt'. A red arrow labeled '1' points to the 'Details' button.

The bottom screenshot shows the same interface with a modal window titled 'Order Details: 6038' open. This modal contains 'Order Info' (date, time, status), 'Session' details, 'Order Reference', 'Receipt Number', and 'Payment Info'. A red arrow labeled '2' points to the 'Edit Payment' button located at the bottom right of the modal.

## 6a.6 Right-side POS Menu

## Step 6b - Process Website Sales

### Purpose

Website orders are placed online but must still be delivered or handed over from stock.

Products only work properly online if product setup is complete:

- Published
- Website category
- Sales price
- Stock

- Image
- eCommerce description

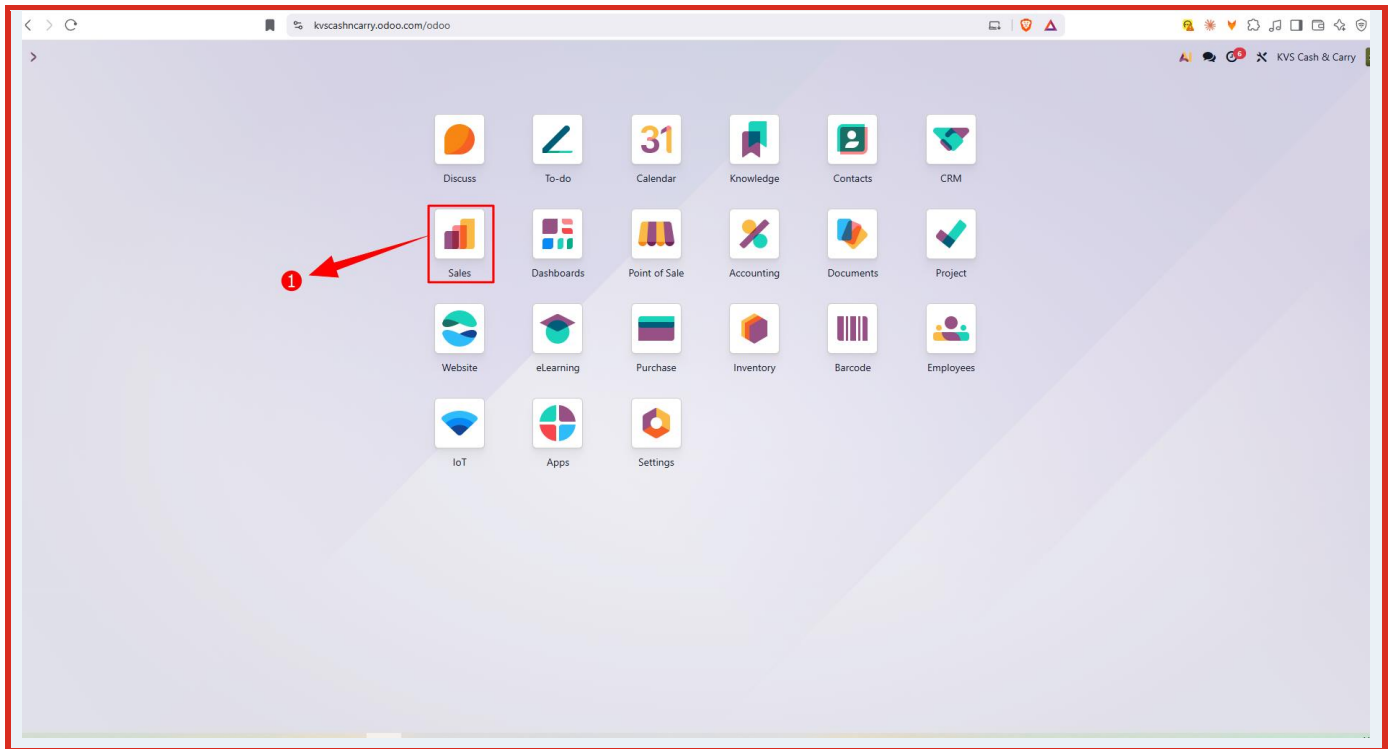

### 6b.1 Find Website Order in Sales App

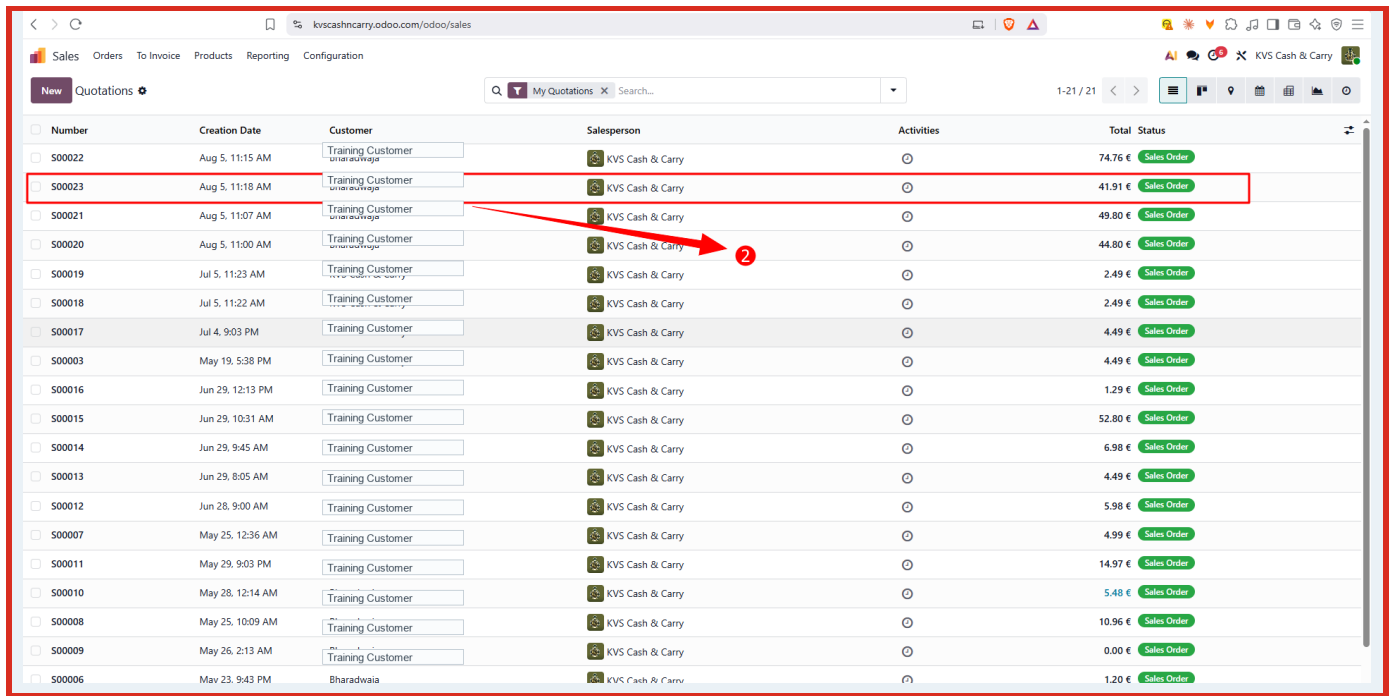

#### Where to go

1. Open Sales app.
2. Go to Orders.
3. Look for the newest orders at the top, sorted by date.
4. Search order number if needed.

For this training:

- Use sales order S00022, supplied by the customer for this exercise.

## 6b.4 Website Orders in Barcode App

### Where to go

#### Picking Up

1. Open Barcode app.
2. Click Operations.
3. Open "PICK".
4. Search/open order S00024.
5. Scan items.
6. Validate the picking when the order is packed and ready for customer collection.
7. The order then moves to Delivery Orders.

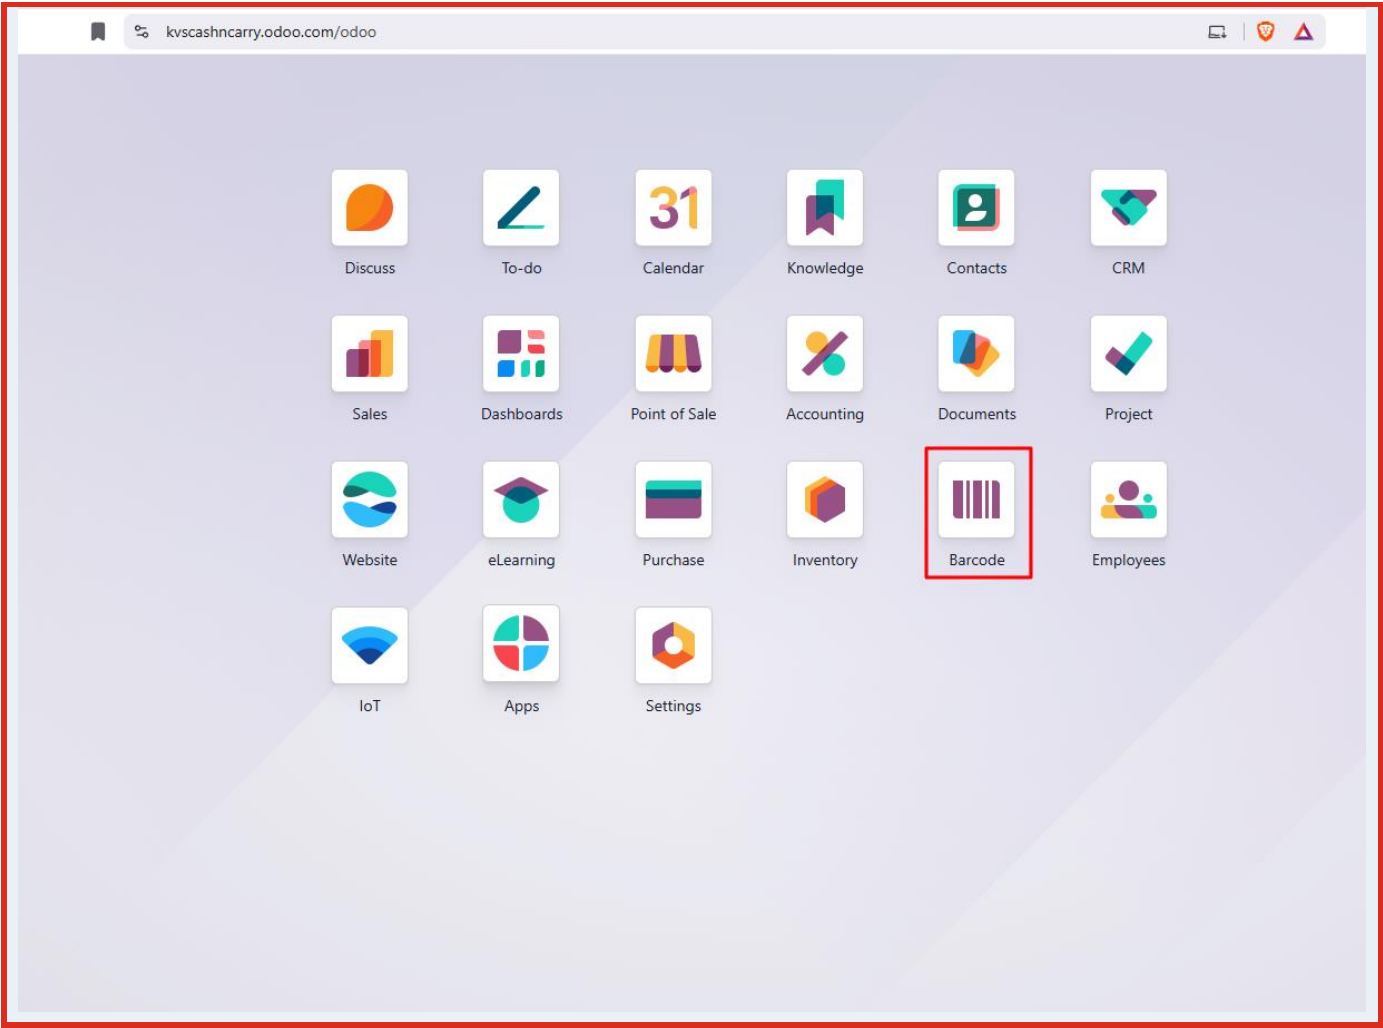

#### Delivery Orders

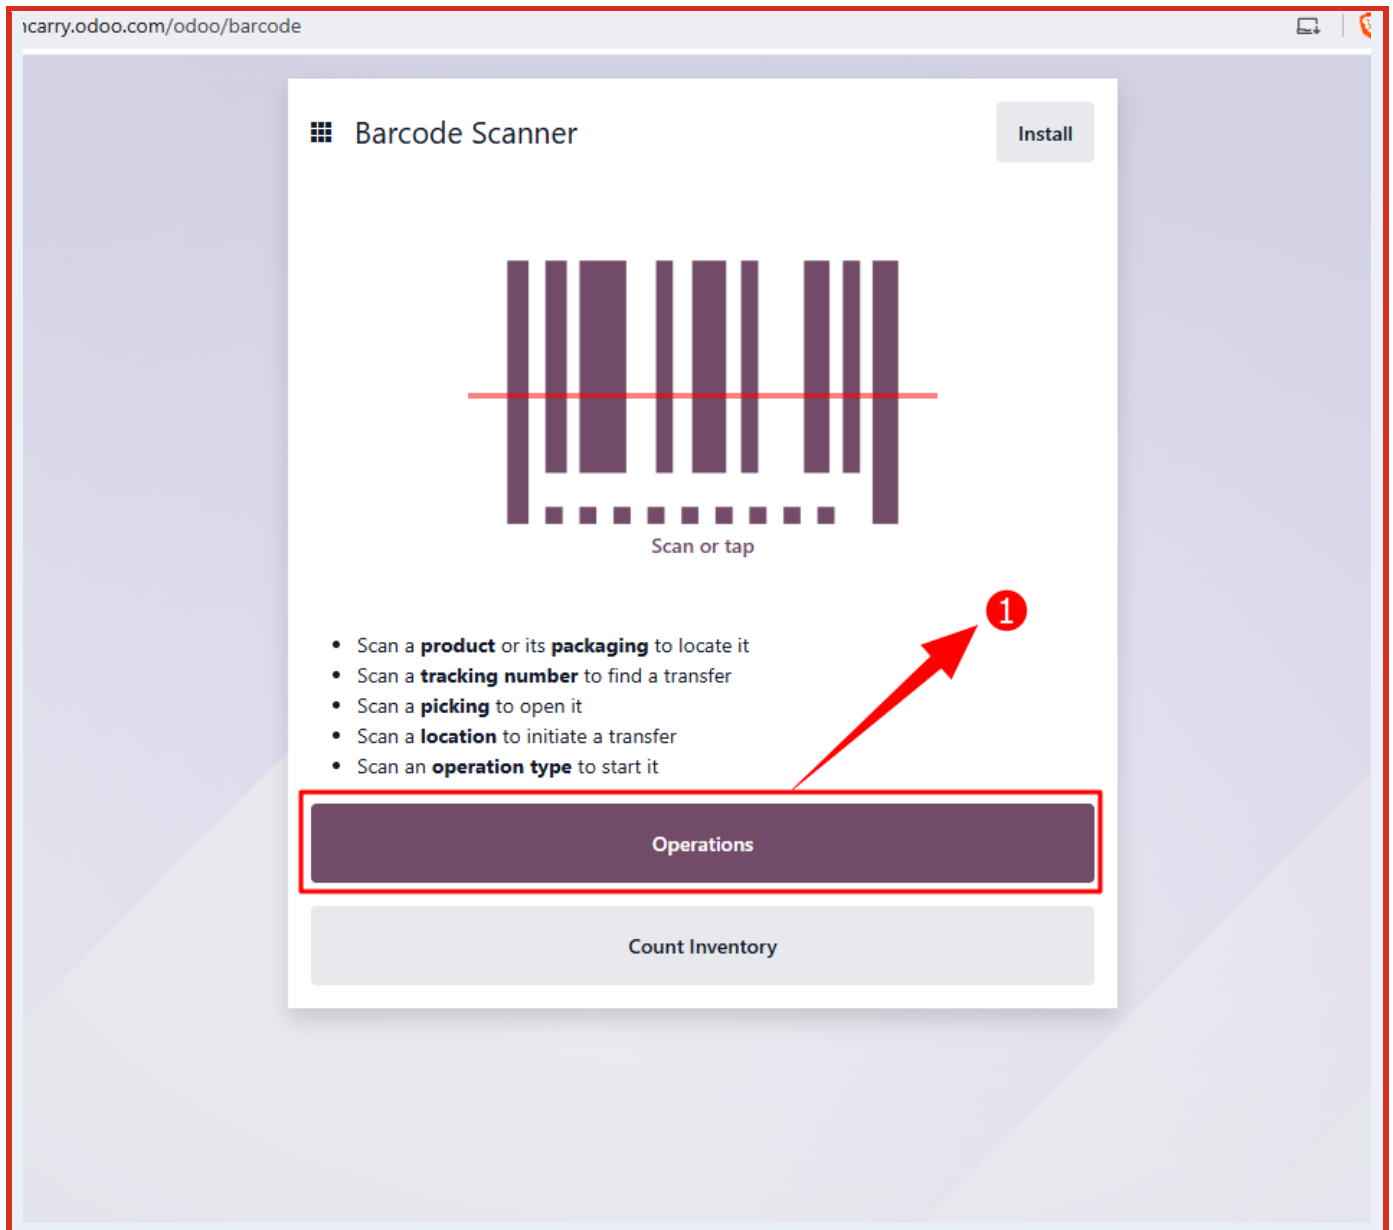

1. Open Barcode app.
2. Click Operations.
3. Open "DELIVERY ORDERS".
4. Search/open order S00024.
5. Scan items.
6. Validate the delivery after the order reaches the customer.

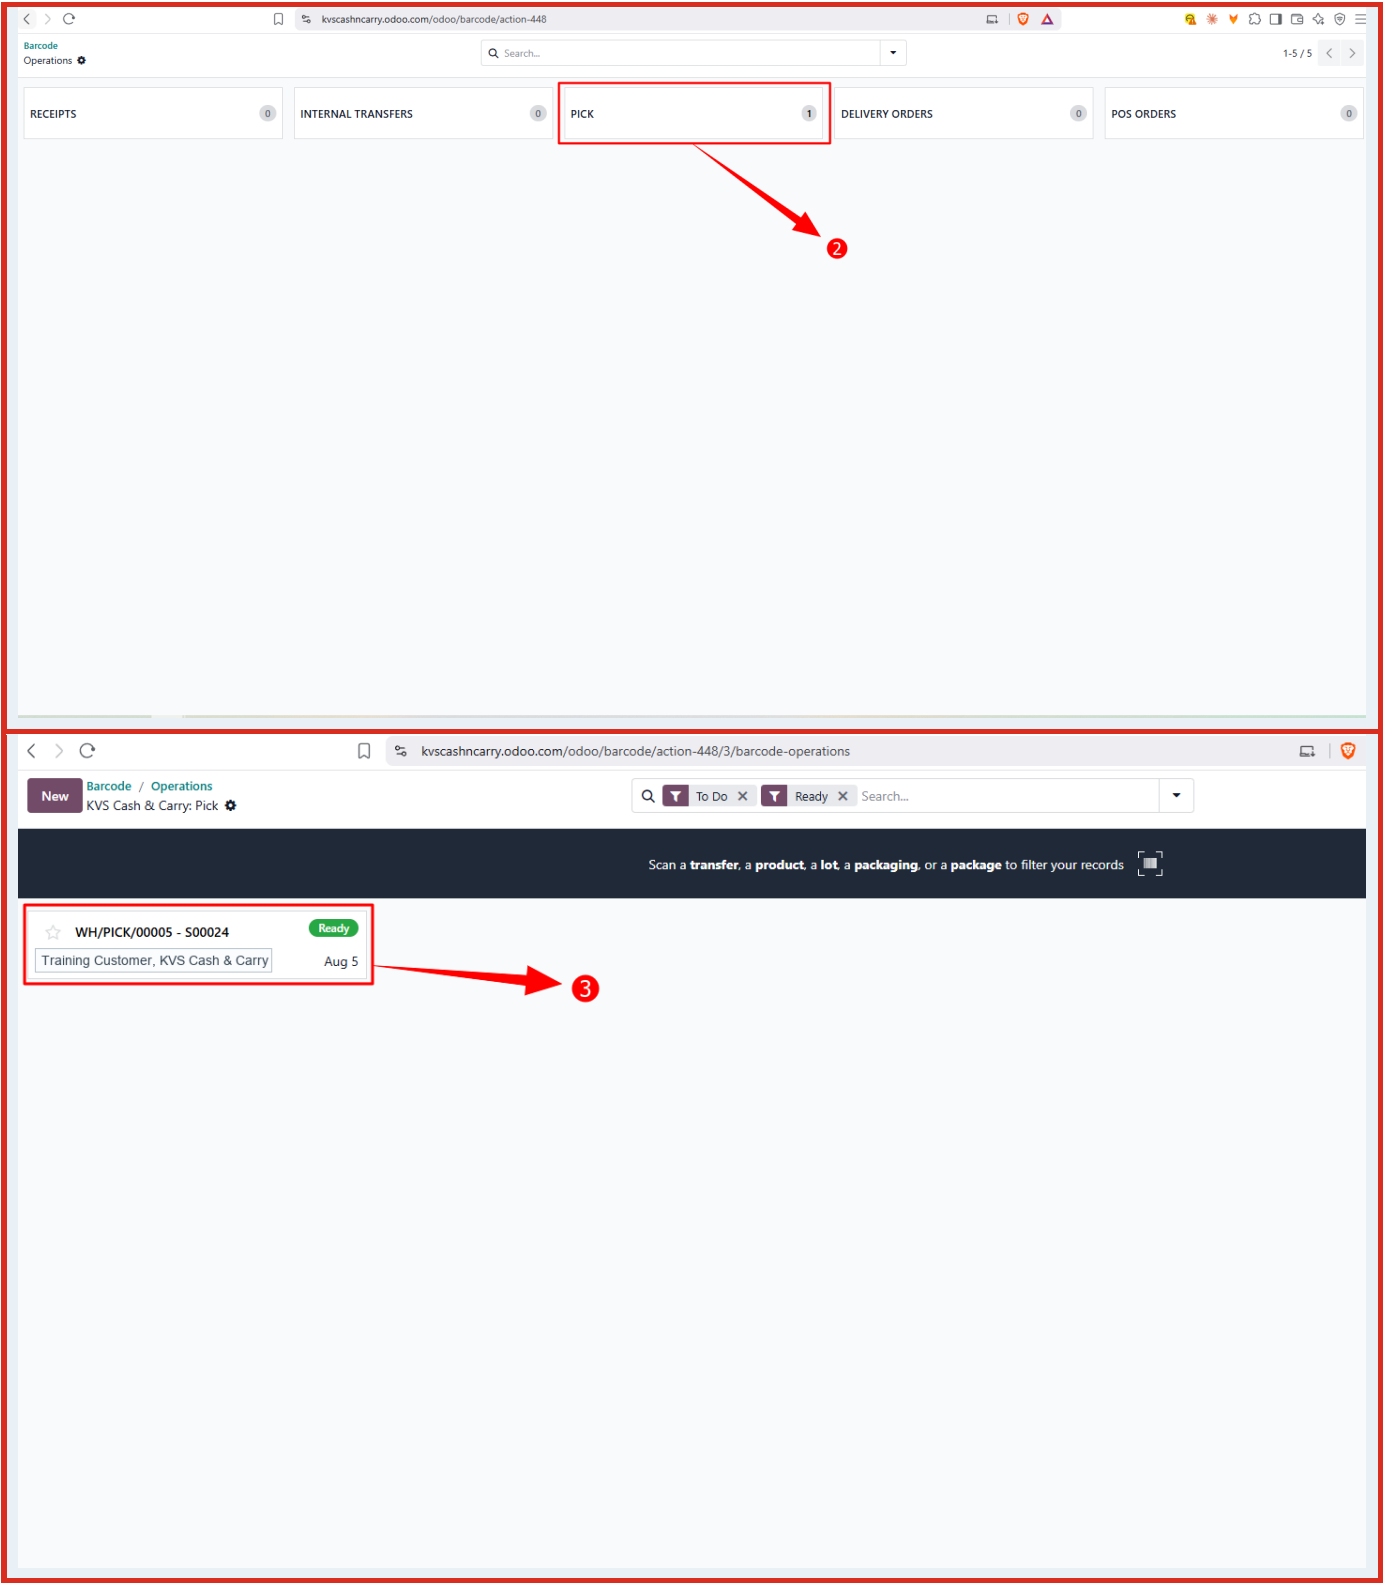

### Why this is useful

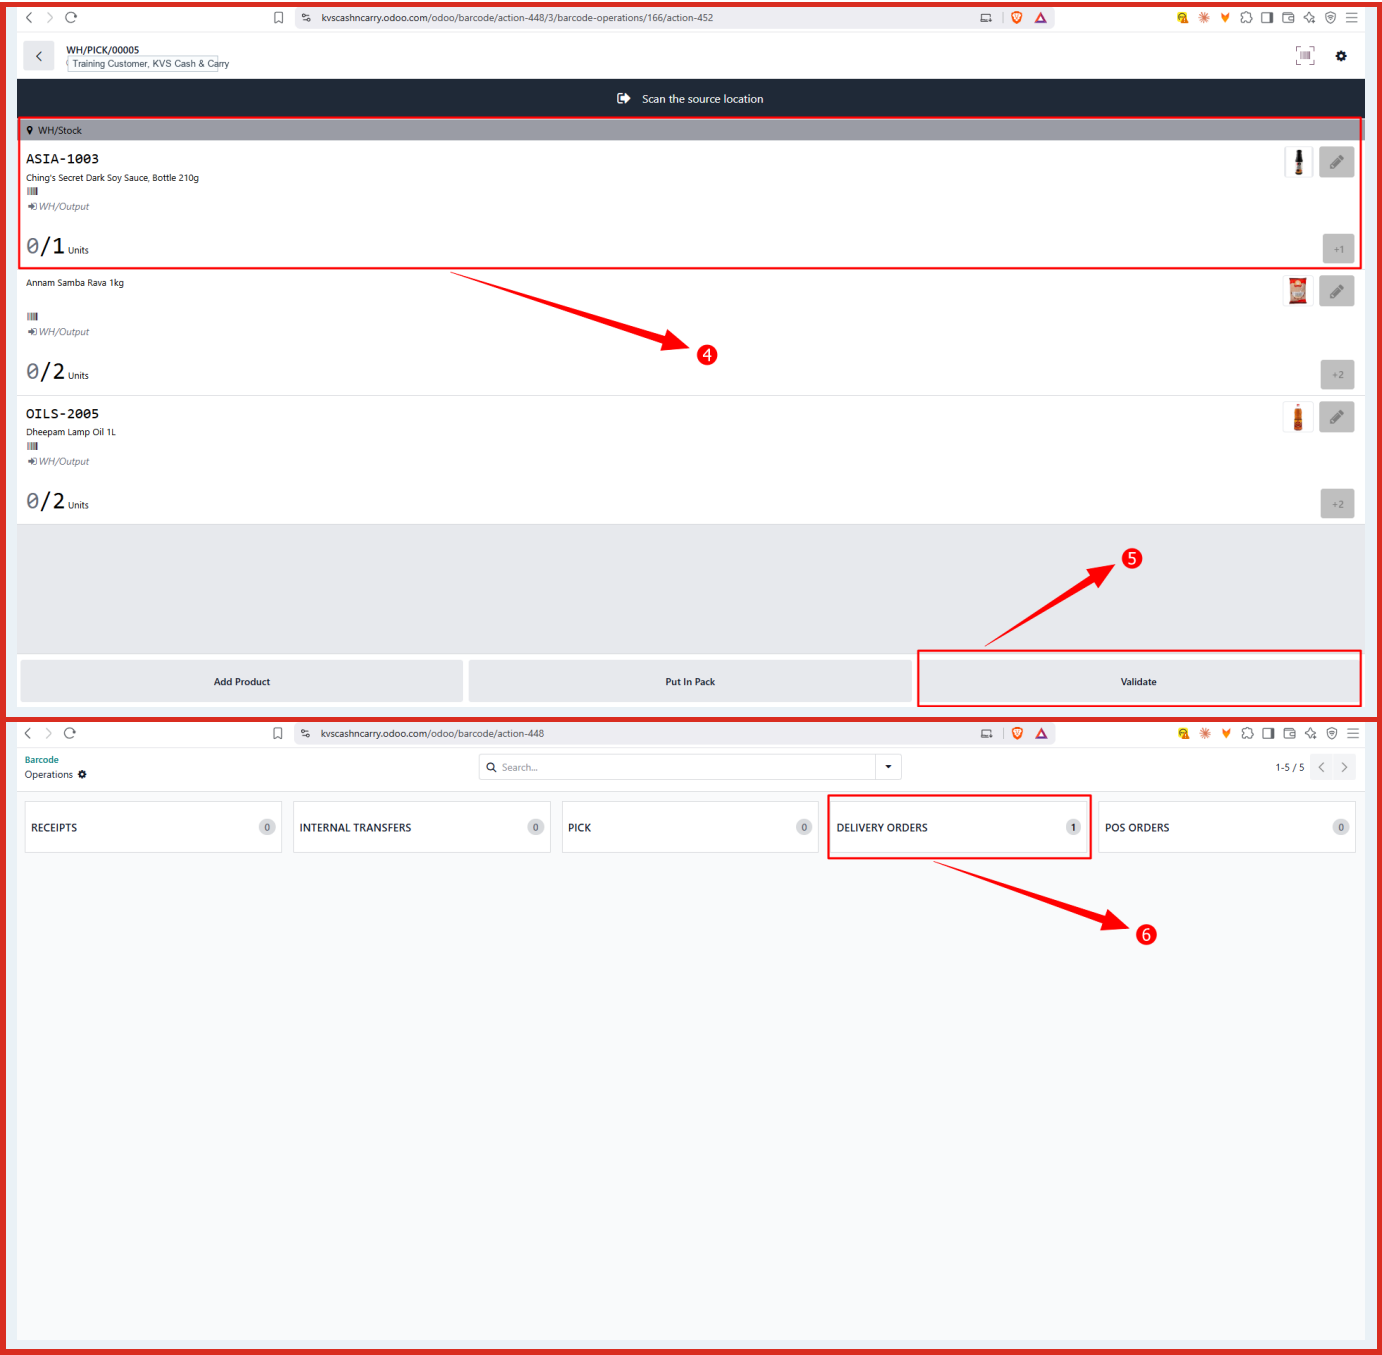

The Barcode App is faster for warehouse or shelf picking because the worker can scan products directly.

The screenshot displays the Odoo Barcode / Operations interface. At the top, a navigation bar shows 'New Barcode / Operations' and 'KVS Cash & Carry: Delivery Orders'. A search bar contains filters for 'To Do' and 'Ready'. Below the navigation bar, a dark header prompts the user to 'Scan a transfer, a product, a lot, a packaging, or a package to filter your records'. The main content area shows a delivery order for 'WH/OUT/00025 - S00024' with a 'Ready' status and a date of 'Aug 5'. A red arrow points from this order to a red circle with the number '7'. Below the order, a list of products is shown. The first product is 'ASIA-1003' (Ching's Secret Dark Soy Sauce, Bottle 210g) with a quantity of '1/1 Units'. The second product is 'Annam Samba Rava 1kg' with a quantity of '1/2 Units'. The third product is 'OILS-2005' (Dheepam Lamp Oil 1L) with a quantity of '0/2 Units'. A red arrow points from the '1/2 Units' quantity to a red circle with the number '8'. At the bottom, there are three buttons: 'Add Product', 'Put In Pack', and 'Validate'.

## Step 7 - Reordering Rules

### Purpose

Reordering rules tell Odoo when to suggest buying more stock.

This prevents products from running out.

### Where to go

1. Open Inventory app.
2. Go to Operations.
3. Click Replenishment.

### 7.1 Search Before Creating

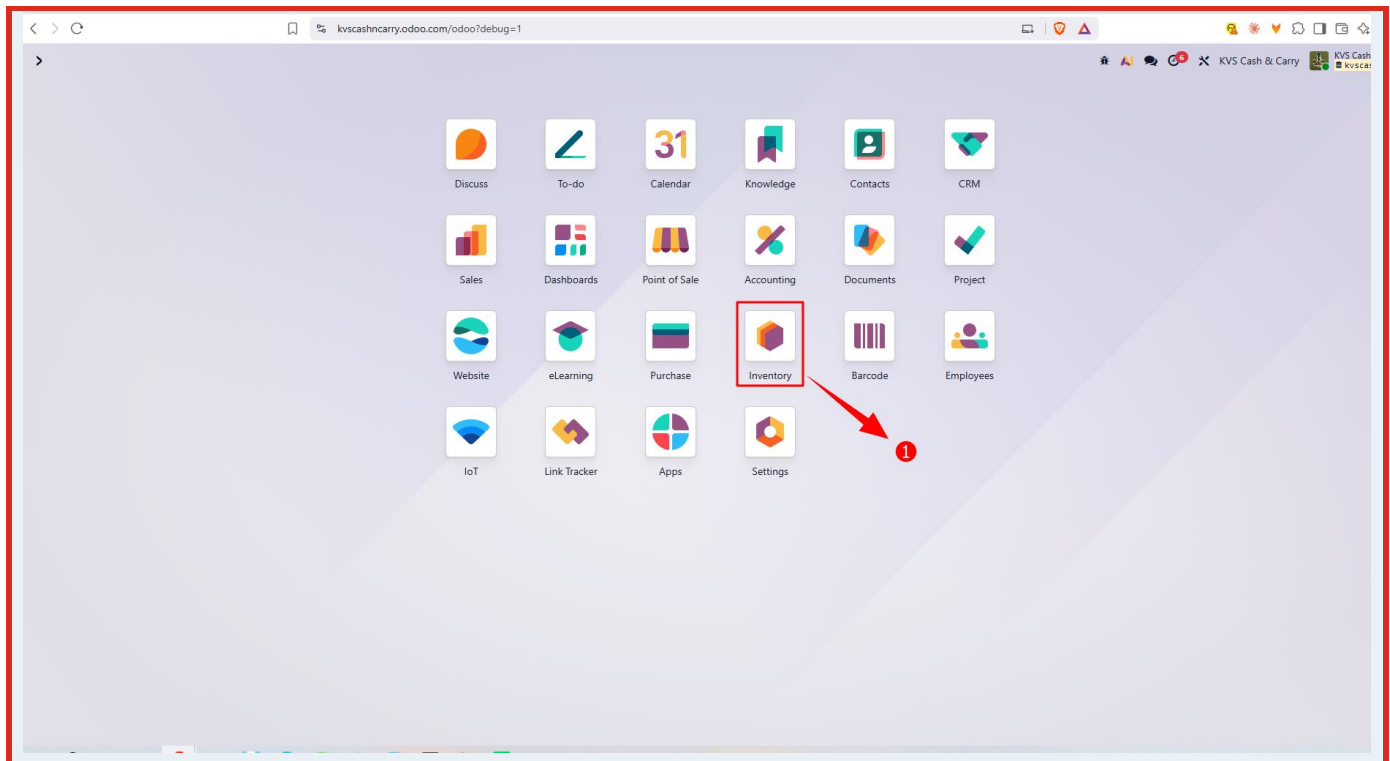

#### What to do

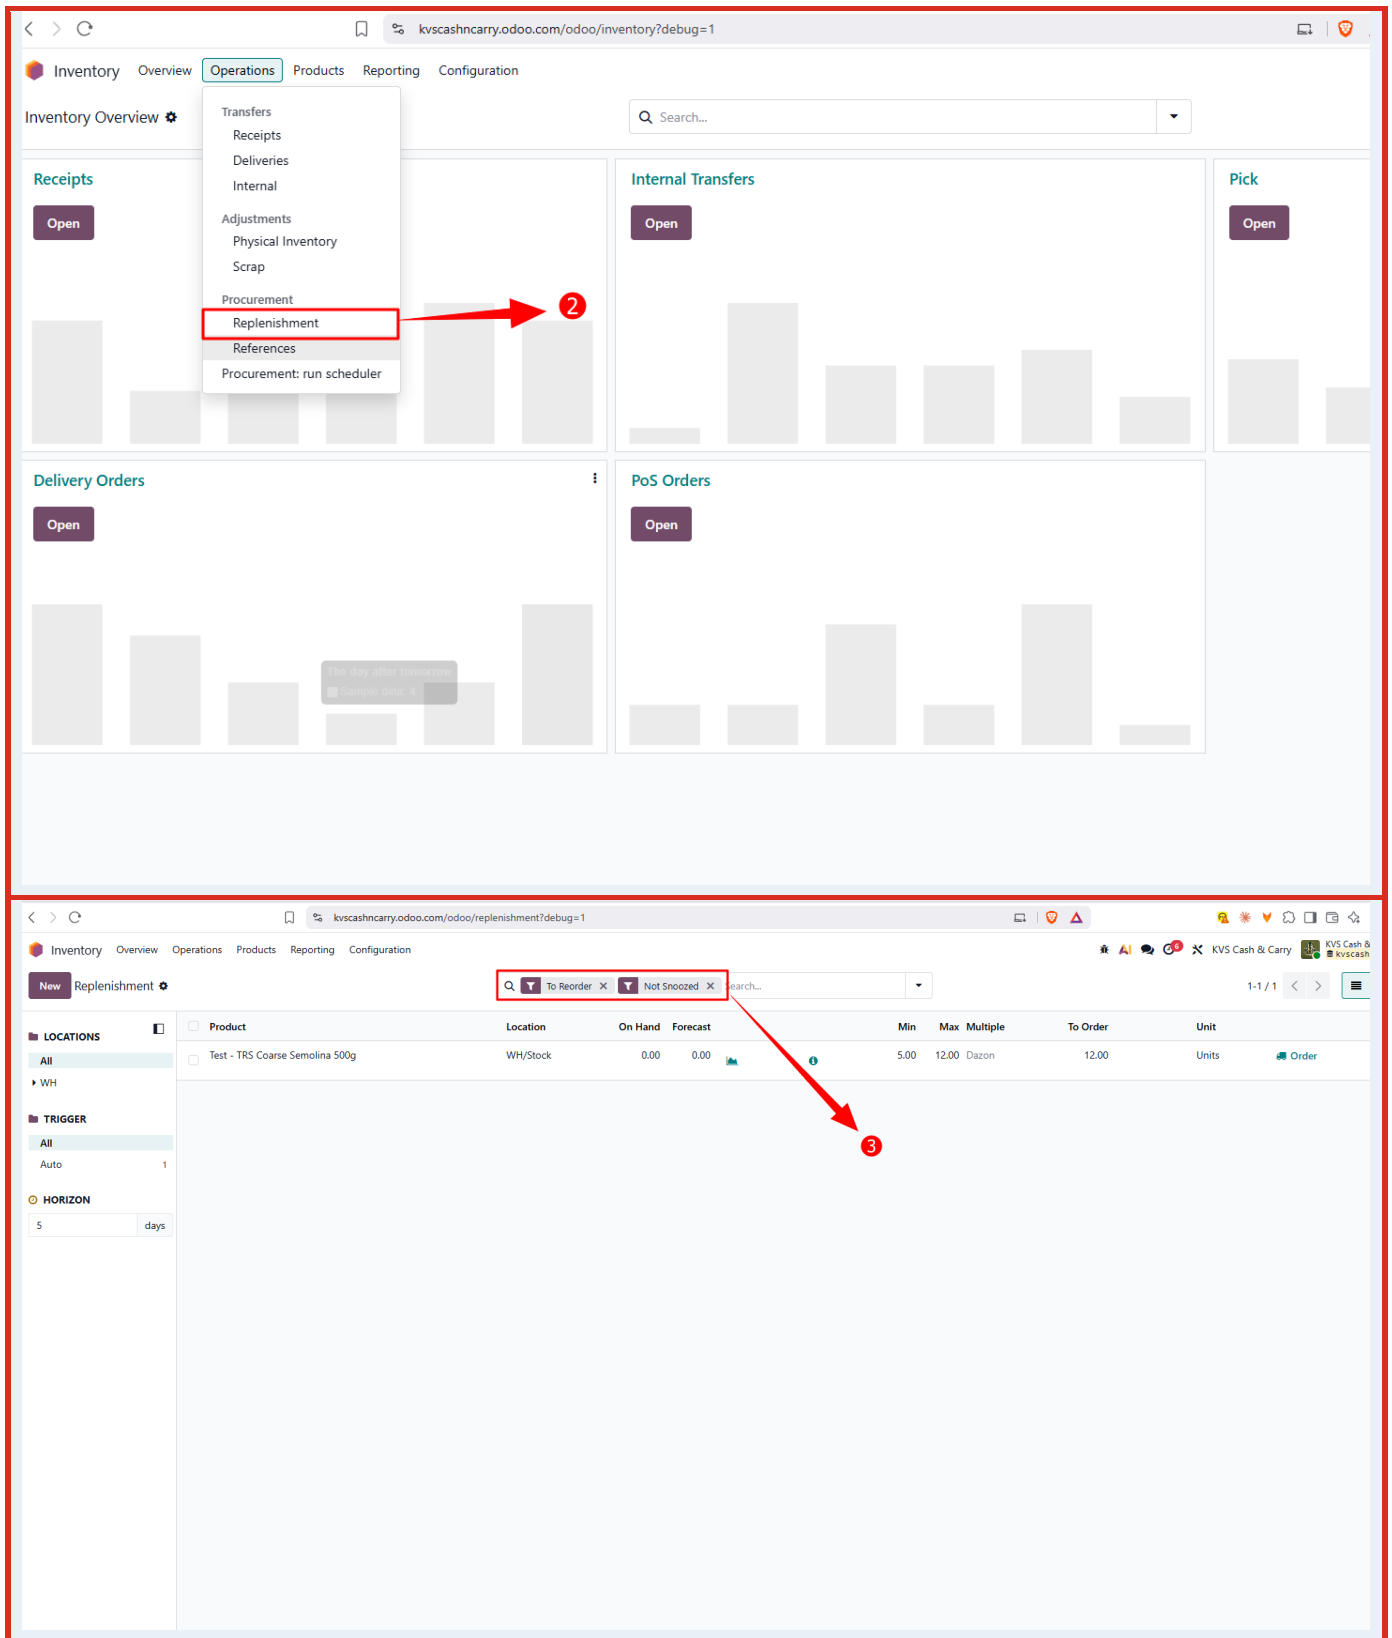

1. Remove all search filters to view every reordering rule.
2. Search product ASIA-1003.
3. Check if a rule already exists.

#### Rule

One product should normally have one reordering rule.

Do not create duplicates.

The image shows two screenshots of the Odoo Inventory application interface, illustrating the Replenishment process.

**Top Screenshot: Inventory Overview**

- The **Operations** menu is open, showing options like Transfers, Receipts, Deliveries, Internal, Adjustments, Physical Inventory, Scrap, Procurement, **Replenishment** (highlighted with a red box and arrow labeled 2), References, and Procurement: run scheduler.
- The **Inventory Overview** dashboard displays several charts: Receipts, Internal Transfers, Pick, Delivery Orders, and PoS Orders. Each chart has an **Open** button.

**Bottom Screenshot: Replenishment**

- The **Replenishment** screen is shown, with a search bar at the top containing filters: **To Reorder** and **Not Snoozed** (highlighted with a red box and arrow labeled 3).
- The left sidebar shows filters for **LOCATIONS** (All, WH), **TRIGGER** (All, Auto), and **HORIZON** (5 days).
- The main table displays inventory data for the product **Test - TRS Coarse Semolina 500g** at location **WH/Stock**. The table includes columns for **On Hand**, **Forecast**, **Min**, **Max**, **Multiple**, **To Order**, and **Unit**. The **To Order** column shows a value of 12.00.

The screenshots show the Odoo Replenishment interface. The top screenshot shows the 'New' button highlighted with a red circle and arrow labeled '4'. The bottom screenshot shows a new rule entry at the bottom of the table, highlighted with a red box and arrow labeled '2'.

## 7.2 Create or Edit a Rule

### If no rule exists

1. Click New.
2. Select Product.
3. Enter Min Quantity.
4. Enter Max Quantity.
5. Enter Multiple.
6. Save.

## What the fields mean

Min Quantity:

When stock drops below this number, Odoo suggests buying more.

Max Quantity:

Odoo suggests buying enough to reach this amount.

Multiple:

The pack size or minimum order multiple.

Multiple is mandatory for practical buying.

Example:

If supplier sells a pack of 24, Multiple should be 24.

The screenshot shows the Odoo Replenishment interface. On the left, there are filters for Locations (All, WH), Triggers (All, Auto, Manual), Categories (SWEETS & CONFECTION..., SPICES & SEASONINGS..., SNACKS & SAVORY / F..., READY-TO-EAT & INST..., PICKLES & CHUTNEYS..., PICKLES & CHUTNEYS..., GRAINS & FLOURS / W..., DRY FRUITS / Dried Fru..., COOKING PASTES & S..., ASIAN PRODUCTS / Asi...), and a Horizon of 5 days. The main table lists products with columns: Product, Location, On Hand, Forecast, Min, Max, Multiple, To Order, Unit, and an action button. A red box highlights the 'New Replenishment' button, and a red arrow points to the 'Min' column header.

The screenshot shows the Odoo Replenishment interface. On the left, there are filters for Locations (All, WH), Triggers (All, Auto, Manual), Categories (SWEETS & CONFECTION..., SPICES & SEASONINGS..., SNACKS & SAVORY / F..., READY-TO-EAT & INST..., PICKLES & CHUTNEYS..., DRY FRUITS / Dried Fru..., COOKING PASTES & S..., ASIAN PRODUCTS / Asi...), and Horizons (5 days). The main table lists products with columns: Product, Location, On Hand, Forecast, Min, Max, Multiple, To Order, Unit, and an Order button. The product ASIA-1003 (Ching's Secret Dark Soy Sauce, Bottle 210g) is highlighted with a red box around its product name. Red arrows point from this box to the 'Min' (24.00), 'Max' (48.00), and 'Multiple' (Pack of 24) columns, which are also highlighted with red boxes. A red arrow points from the 'Order' button to the bottom right of the table.

## 7.3 When Odoo Triggers Reordering

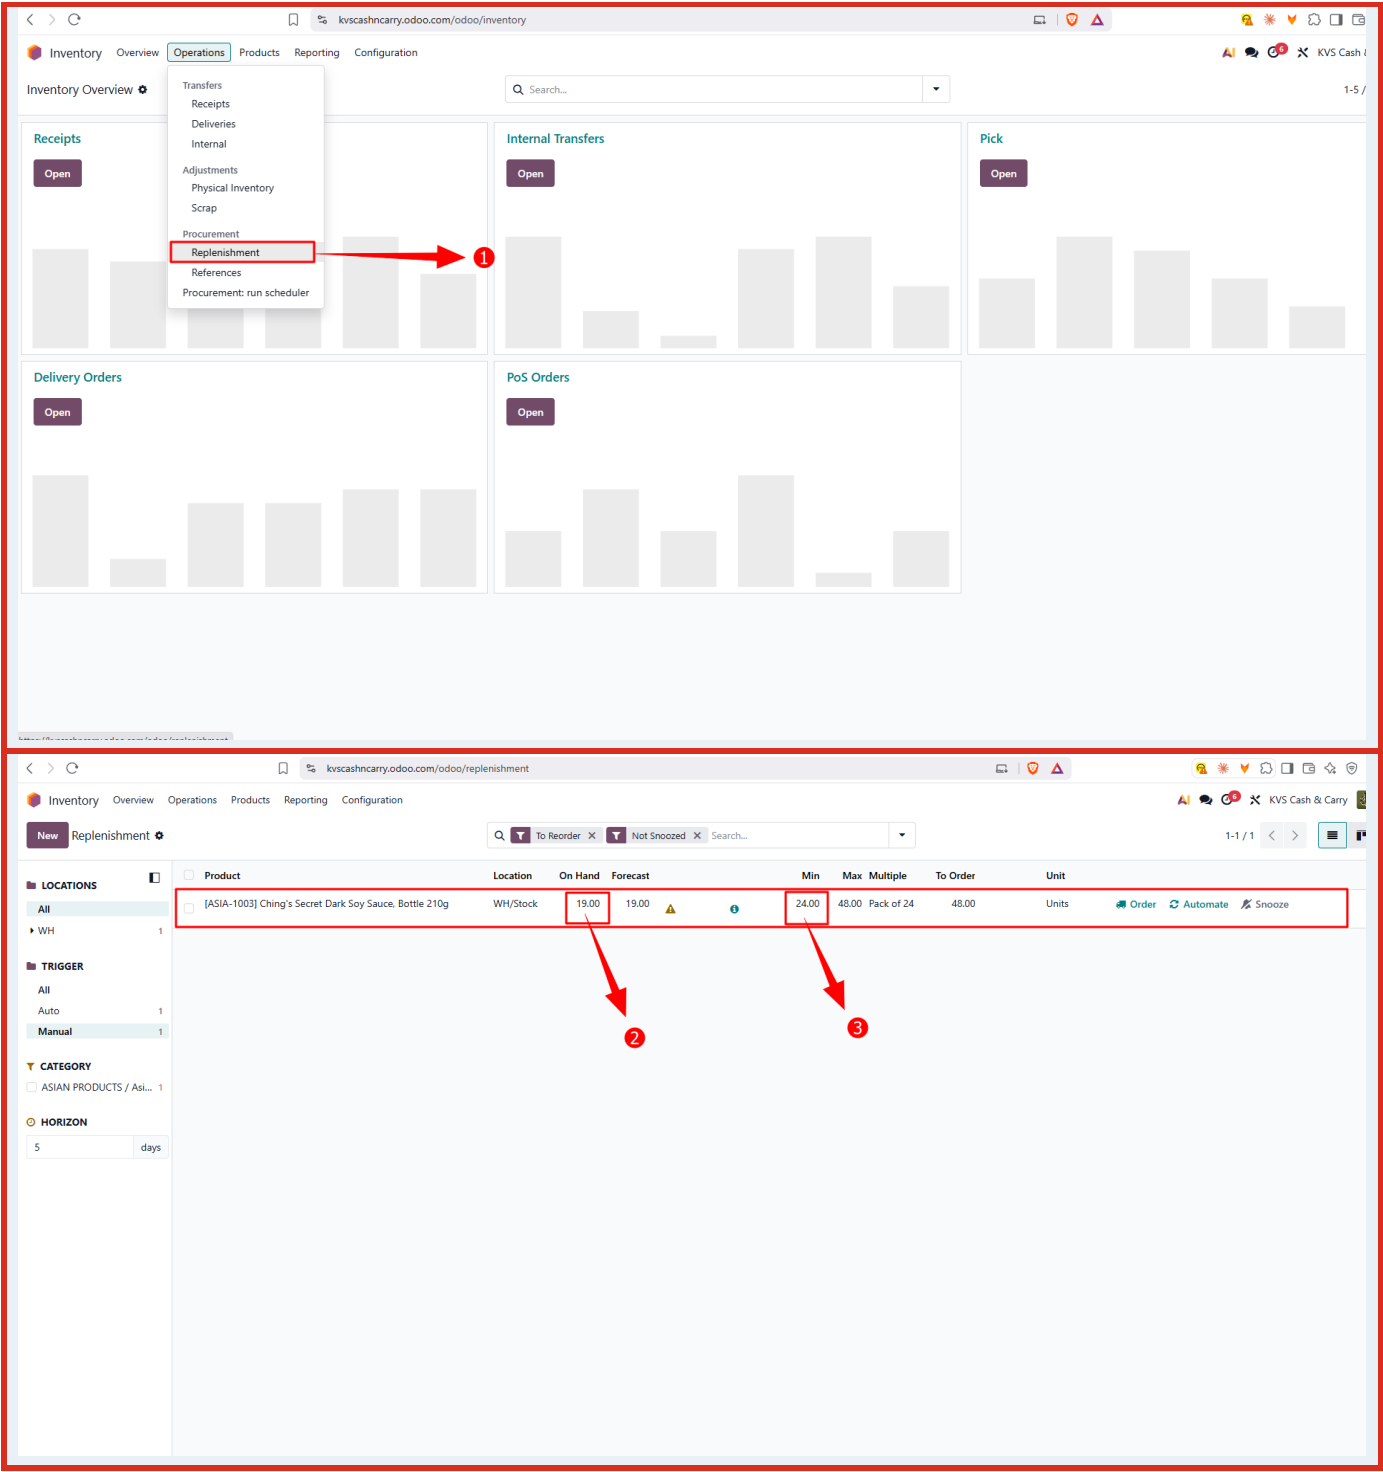

### What happens

When stock goes below Min Quantity, Odoo shows an Order button.

Test the rule by reducing ASIA-1003 below the minimum quantity.

### What to do

1. Open Replenishment.
2. Find triggered product.
3. Click Order.
4. Odoo creates a quotation in Purchase.
5. Continue with Step 3.

The top screenshot shows the 'Replenishment' screen in the Odoo KVS Cash & Carry system. The left sidebar contains filters for 'LOCATIONS' (All, WH), 'TRIGGER' (All, Auto, Manual), 'CATEGORY' (ASIAN PRODUCTS / Asi...), and 'HORIZON' (5 days). The main table lists products with columns: Product, Location, On Hand, Forecast, Min, Max, Multiple, To Order, and Unit. The first row shows '[ASIA-1003] Ching's Secret Dark Soy Sauce, Bottle 210g' at 'WH/Stock' with 'On Hand' of 19.00 and 'Forecast' of 19.00. The 'Order' button is highlighted with a red box, and a red arrow points from it to a red circle containing the number 4.

The bottom screenshot shows the Odoo dashboard with a grid of app icons. The 'Purchase' icon is highlighted with a red box, and a red arrow points from it to a red circle containing the number 5.

## Step 8 - Count, Scrap, and Report Stock

### Purpose

This step is for fast daily inventory work and control.

Use it for:

- Receiving
- Delivering website orders
- Counting stock
- Scrapping damaged/expired items
- Checking reports

### 8.1 Validate Received Stock in the Barcode App

#### Where to go

1. Open Barcode app.
2. Click Operations.
3. Click Receipts.
4. Open the expected receipt.

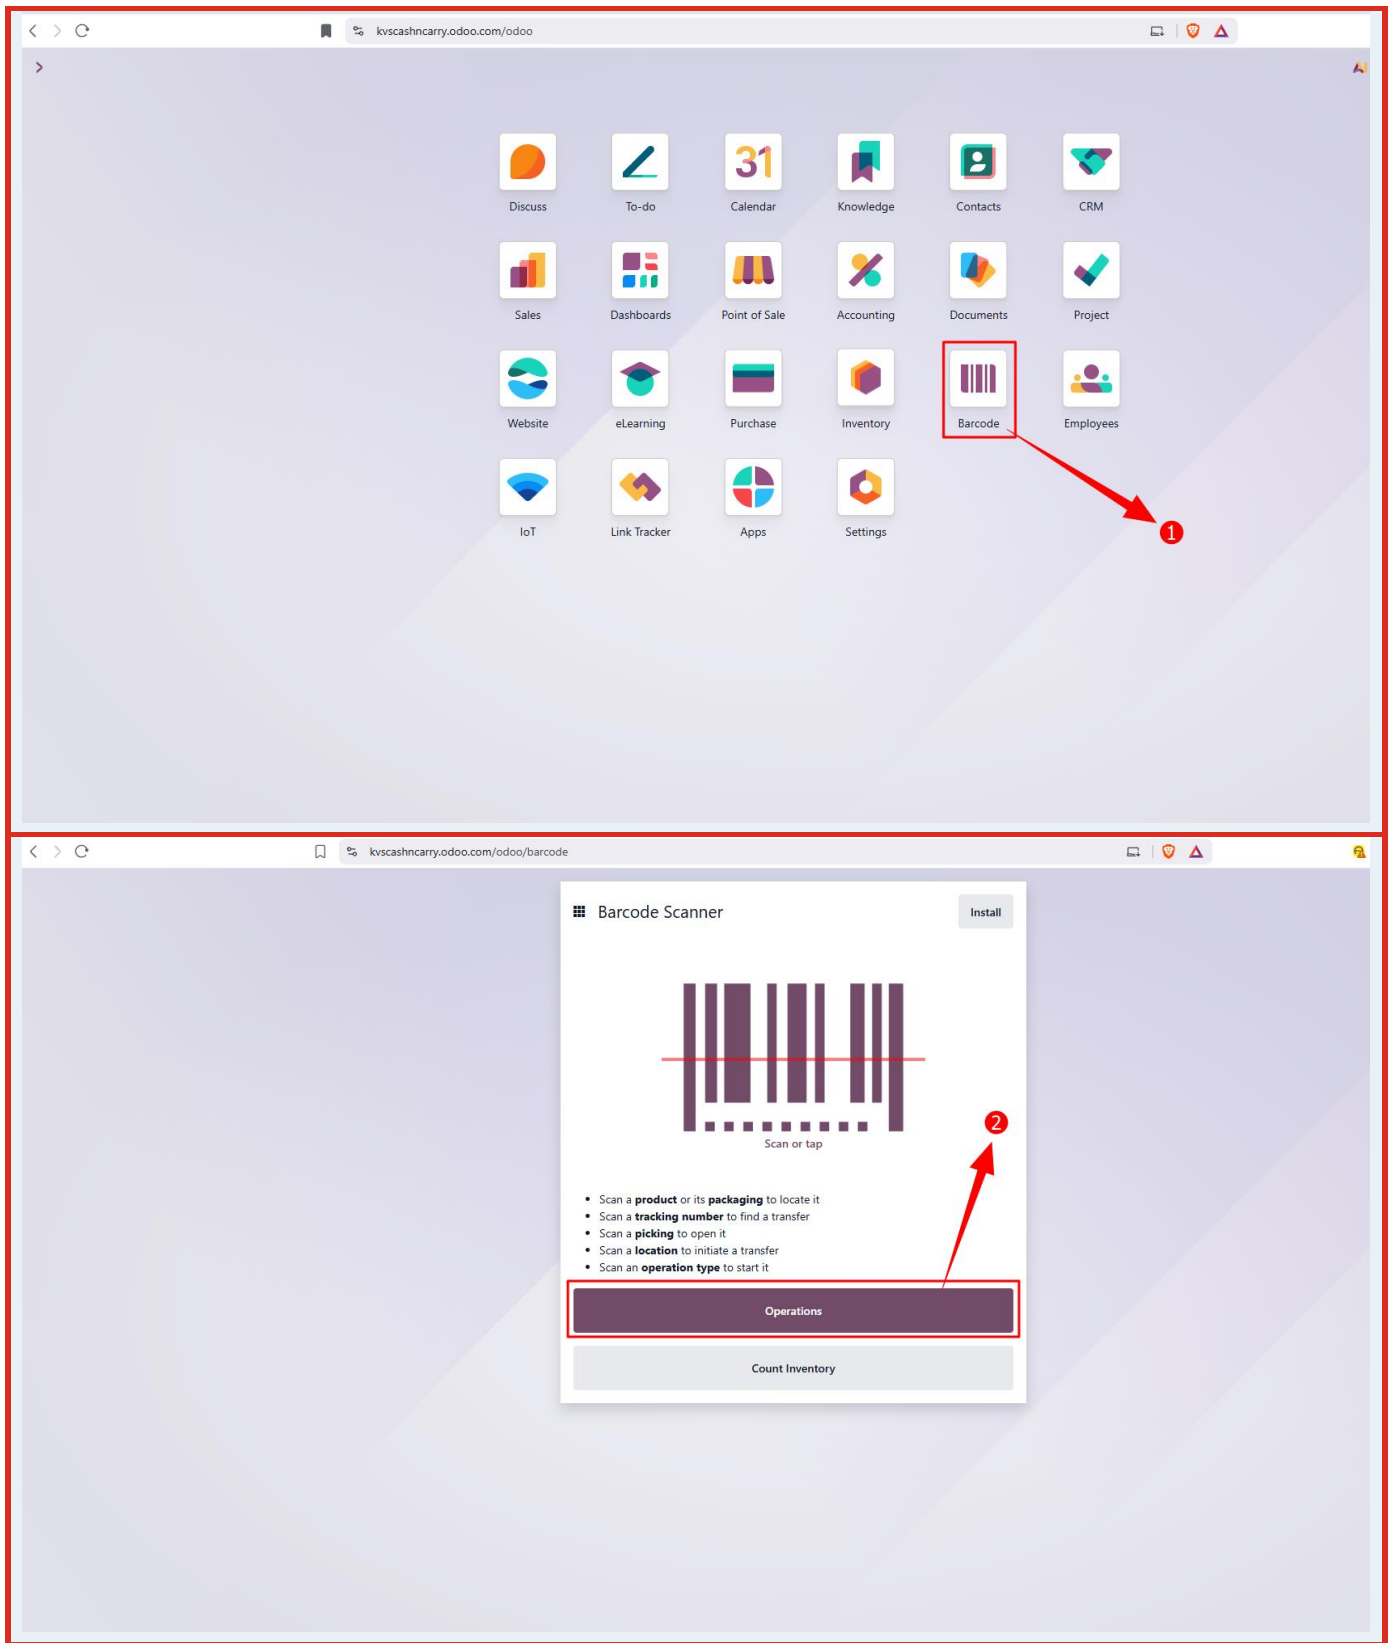

#### What to do

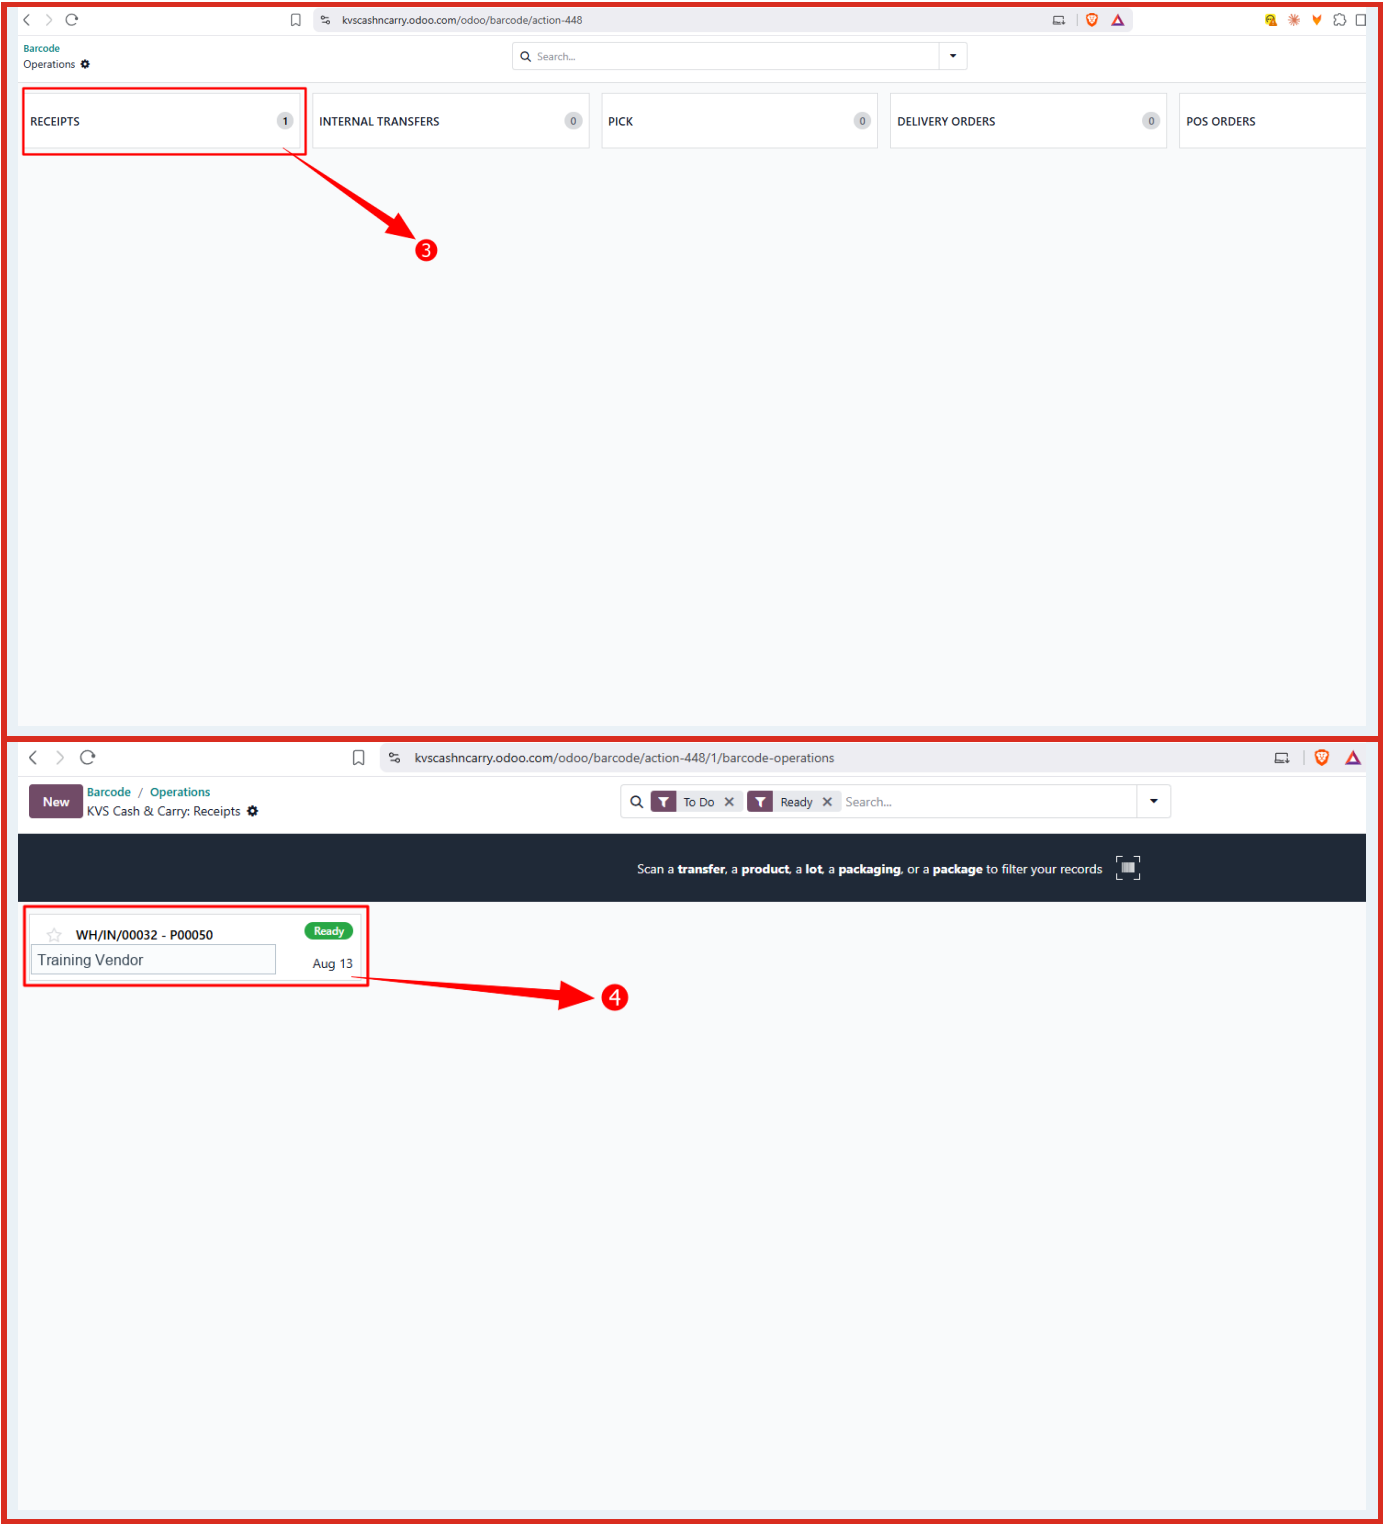

1. Scan product barcode.
2. Enter arrived quantity.
3. Check lot/serial is assigned.
4. Validate.

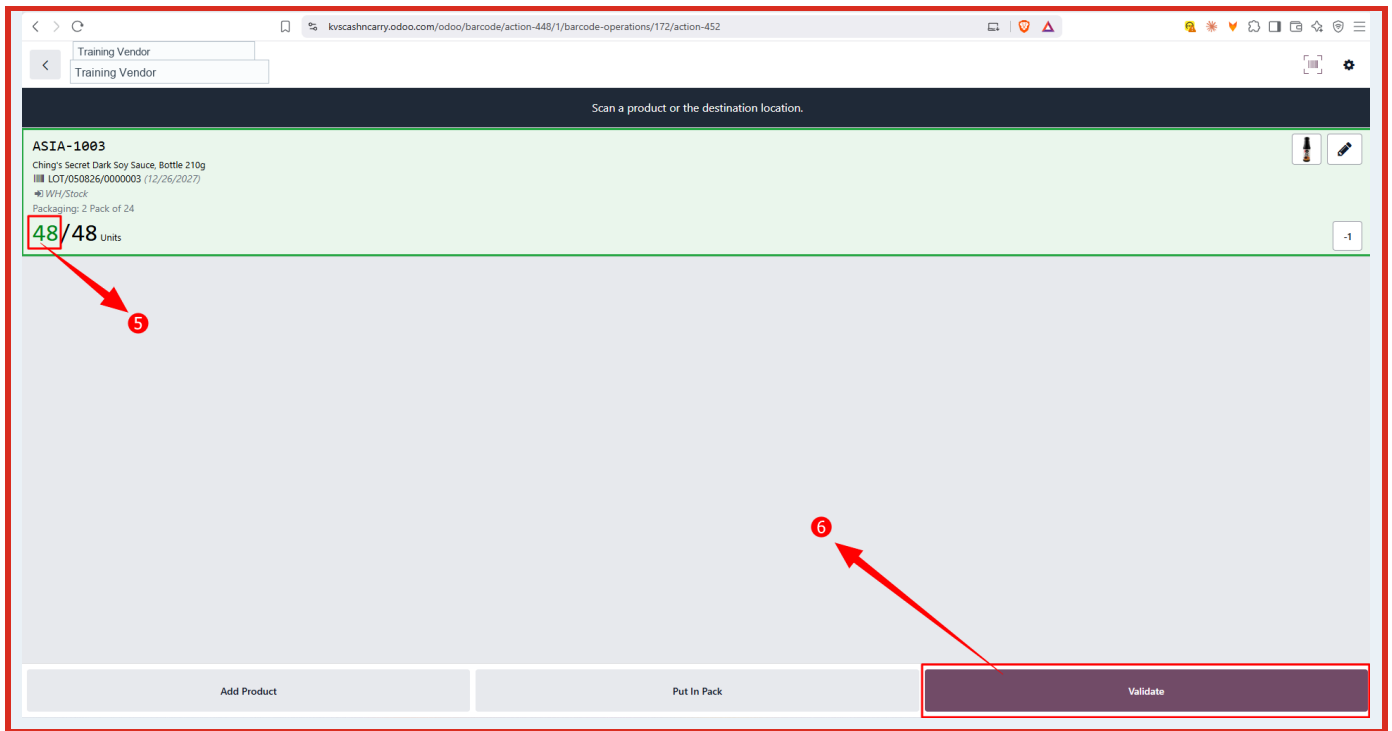

#### Important

Every received product tracked by lots must have a lot/serial.

If lot is missing, go back to the receipt details and assign it before validating.

## 8.2 Count Stock

### Where to go

1. Barcode app.
2. Open Count / Inventory Count.

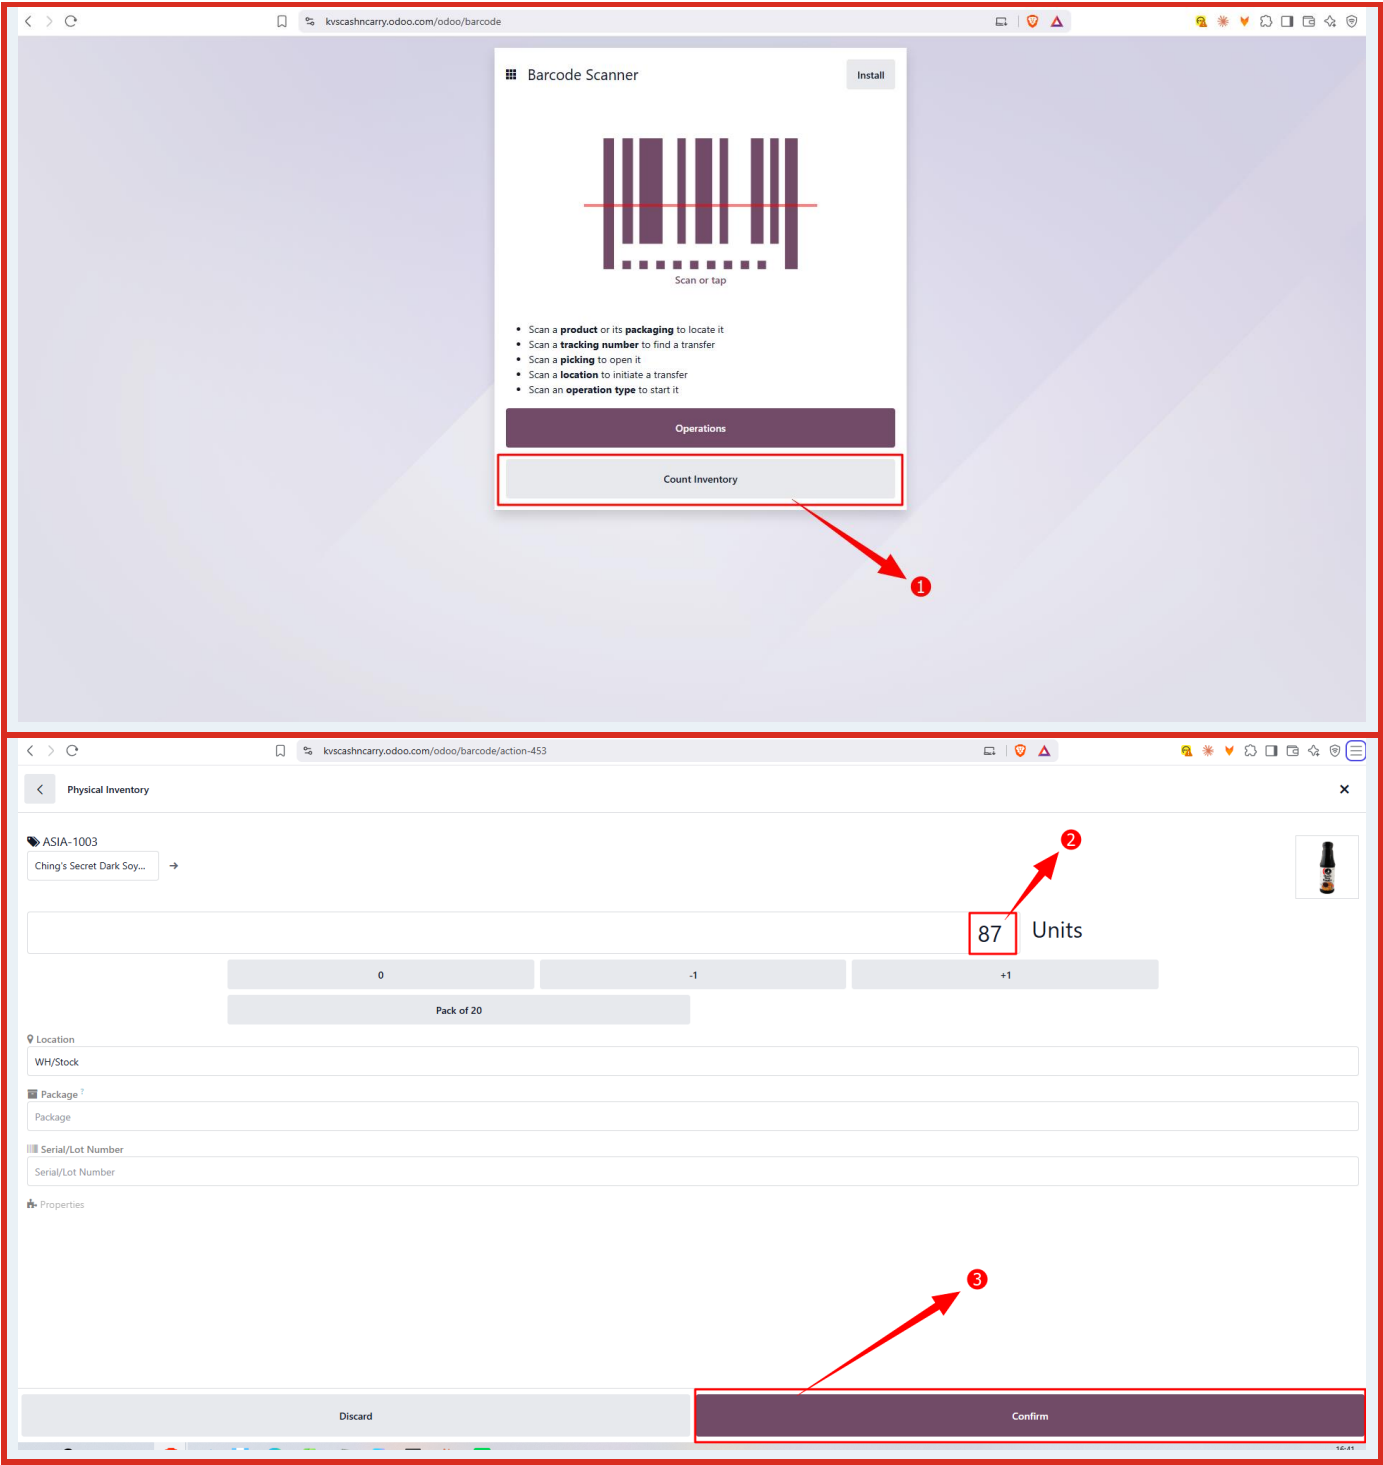

### What to do

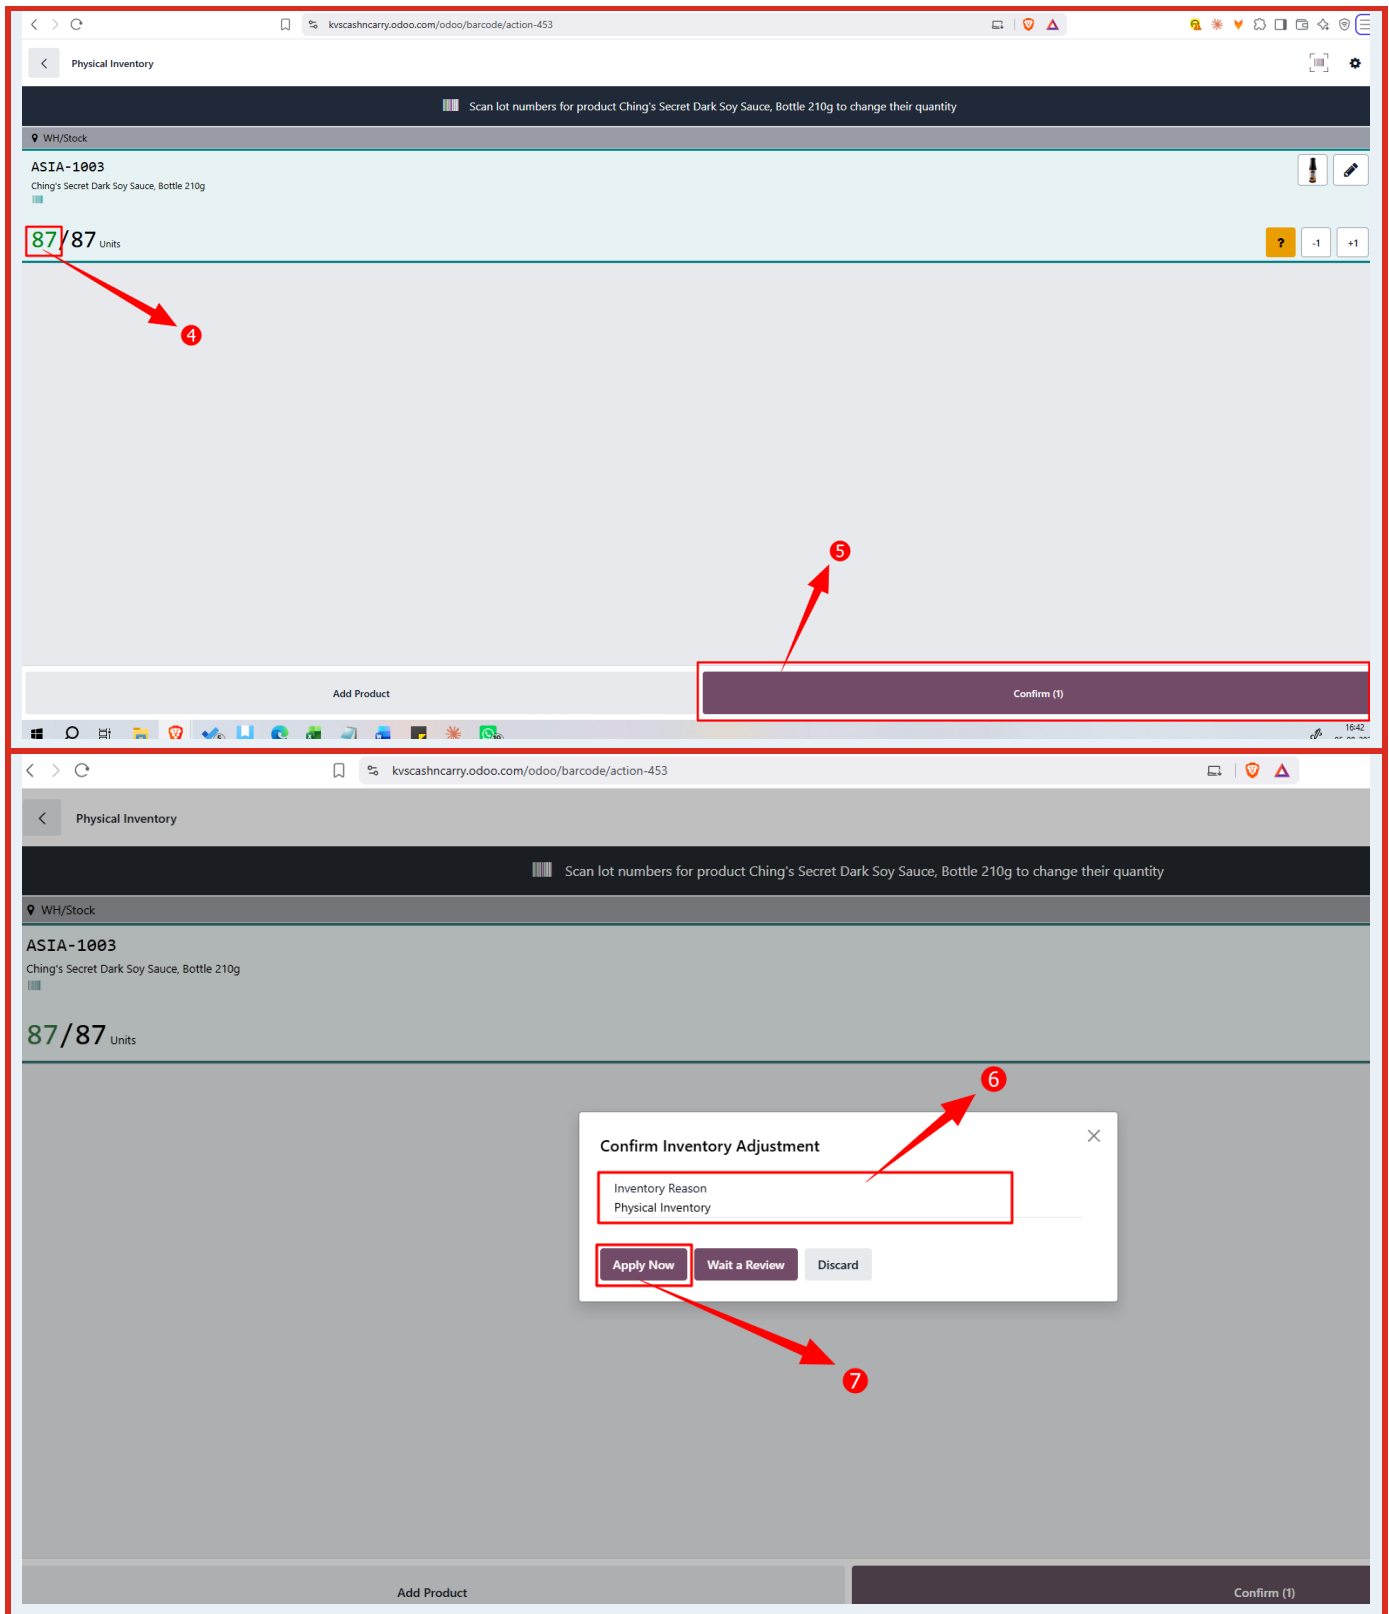

1. Scan product barcode.
2. Count physical items on shelf.
3. Enter counted quantity.
4. Confirm adjustment if needed.

### Rule

Odoo stock should equal shelf stock.

If shelf and Odoo do not match, investigate first.

### 8.3 Scrap Damaged or Expired Stock

#### Purpose

Scrap removes stock that cannot be sold.

Examples:

- Damaged item
- Expired item
- Broken package
- Spoiled product

### **Where to go**

1. Inventory app.
2. Operations.
3. Scraps.
4. Click New.

### **What to fill**

Always fill:

- Product
- Quantity
- Unit
- Lot
- Scrap Reason

### **Important Odoo quirk**

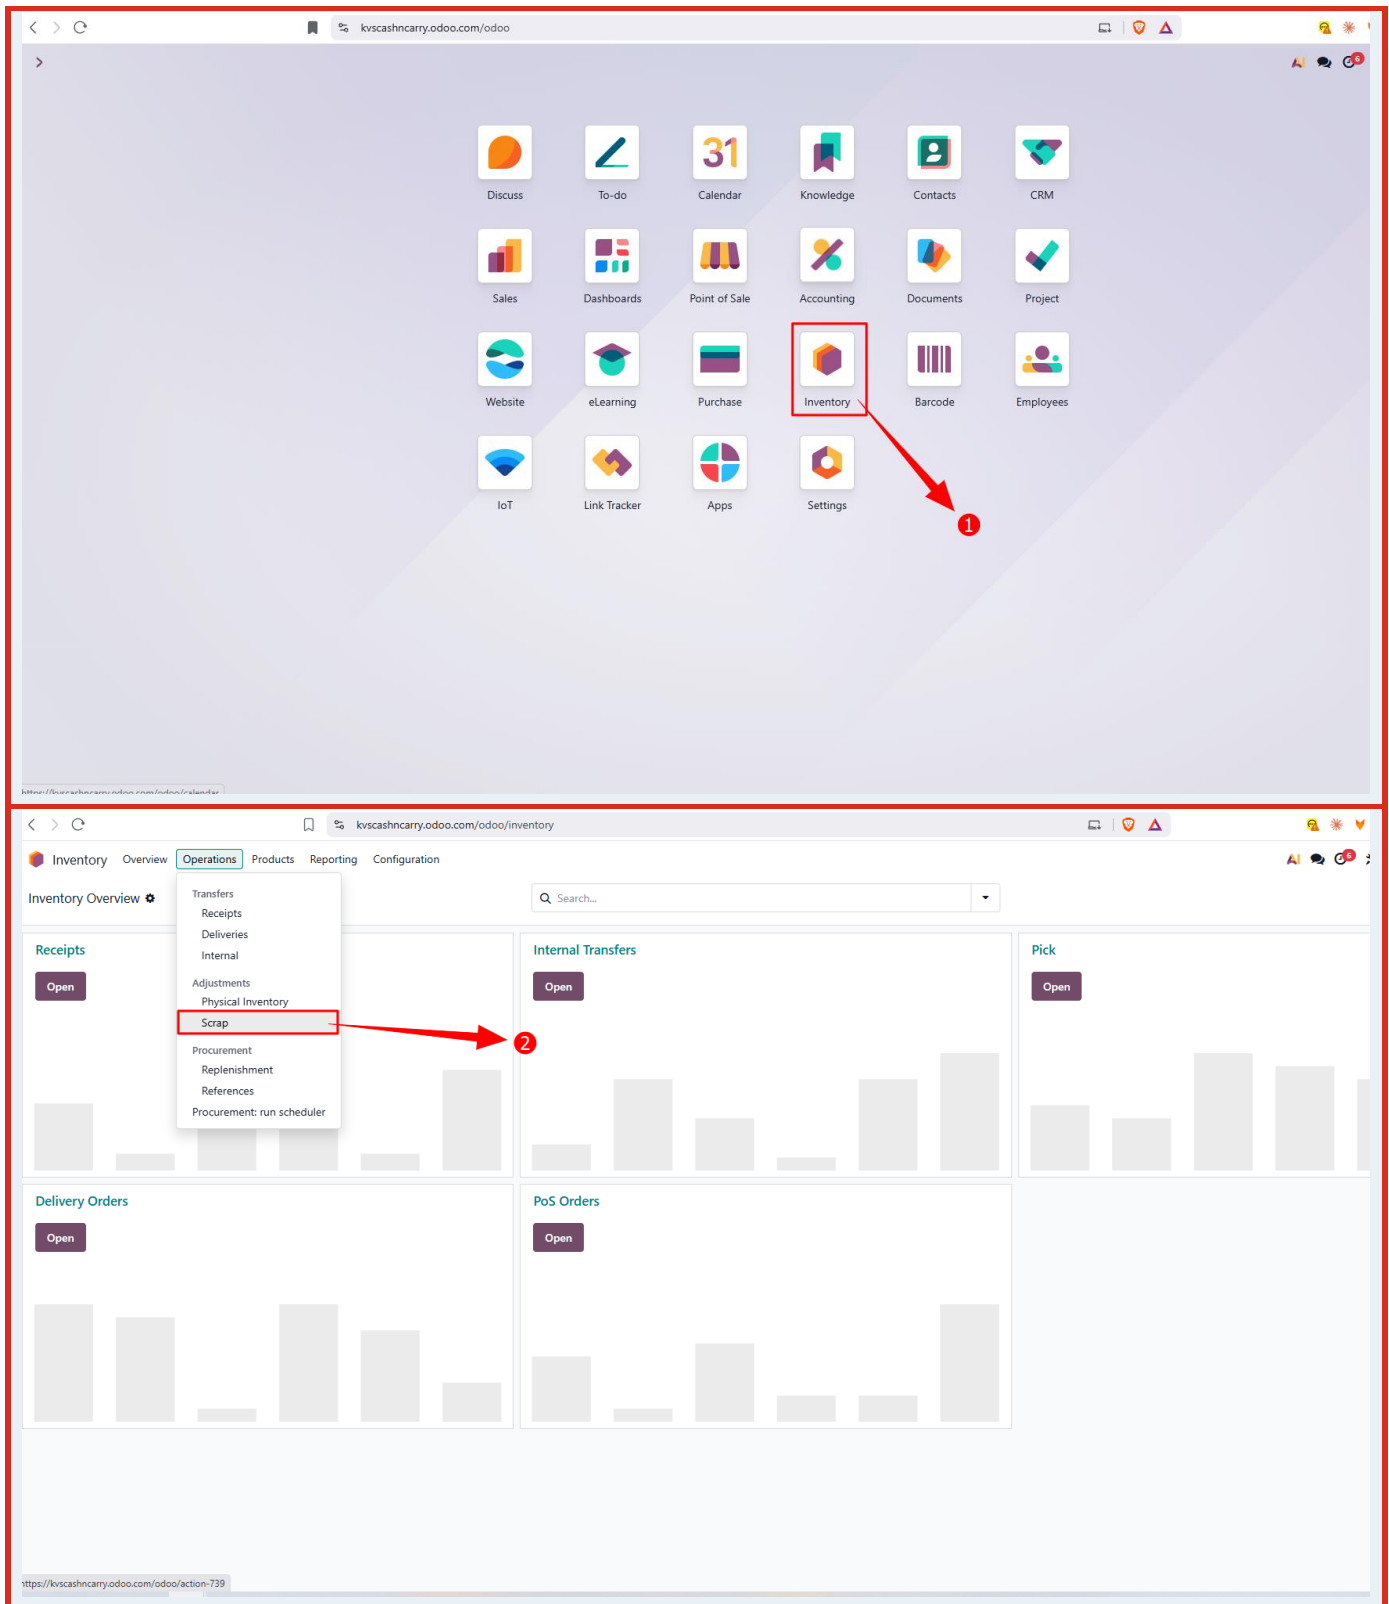

When you select the Lot, Odoo may reset Quantity to 1.

So after choosing the lot:

1. Check quantity again.
2. Re-enter quantity if needed.
3. Check again before Confirm.

### **What to do**

1. Click New.
2. Select product.
3. Enter quantity.
4. Select unit.
5. Select lot.
6. Re-check quantity.
7. Add scrap reason.
8. Click Confirm.

The screenshot shows the Odoo Inventory Scrap interface. The top navigation bar includes 'Inventory', 'Overview', 'Operations', 'Products', 'Reporting', and 'Configuration'. The 'New' button is highlighted with a red box and labeled '1'. A red arrow points from '1' to the 'Scrap' button, which is labeled '3'. Below the buttons is a search bar. The main table lists scrap records with columns: Reference, Date, Product, Quantity, Unit, Source Location, Scrap Location, and Status. The table contains 10 rows of data. Below the table, the 'Confirm' button is highlighted with a red box and labeled '8'. A red arrow points from '8' to the 'New' button in the form, labeled '4'. The form contains fields for Product, Source Location, Quantity, Scrap Location, Lot/Serial Numbers, and Scrap Reason. The 'Quantity' field is highlighted with a red box and labeled '5'. The 'Scrap Location' field is highlighted with a red box and labeled '6'. The 'Scrap Reason' field is highlighted with a red box and labeled '7'. A red arrow points from '7' to the 'Confirm' button, labeled '8'.

## Report C - Clock Icon / To-dos

### Purpose

The clock icon shows tasks that need attention.

Examples:

- Products near alert date
- Expired products

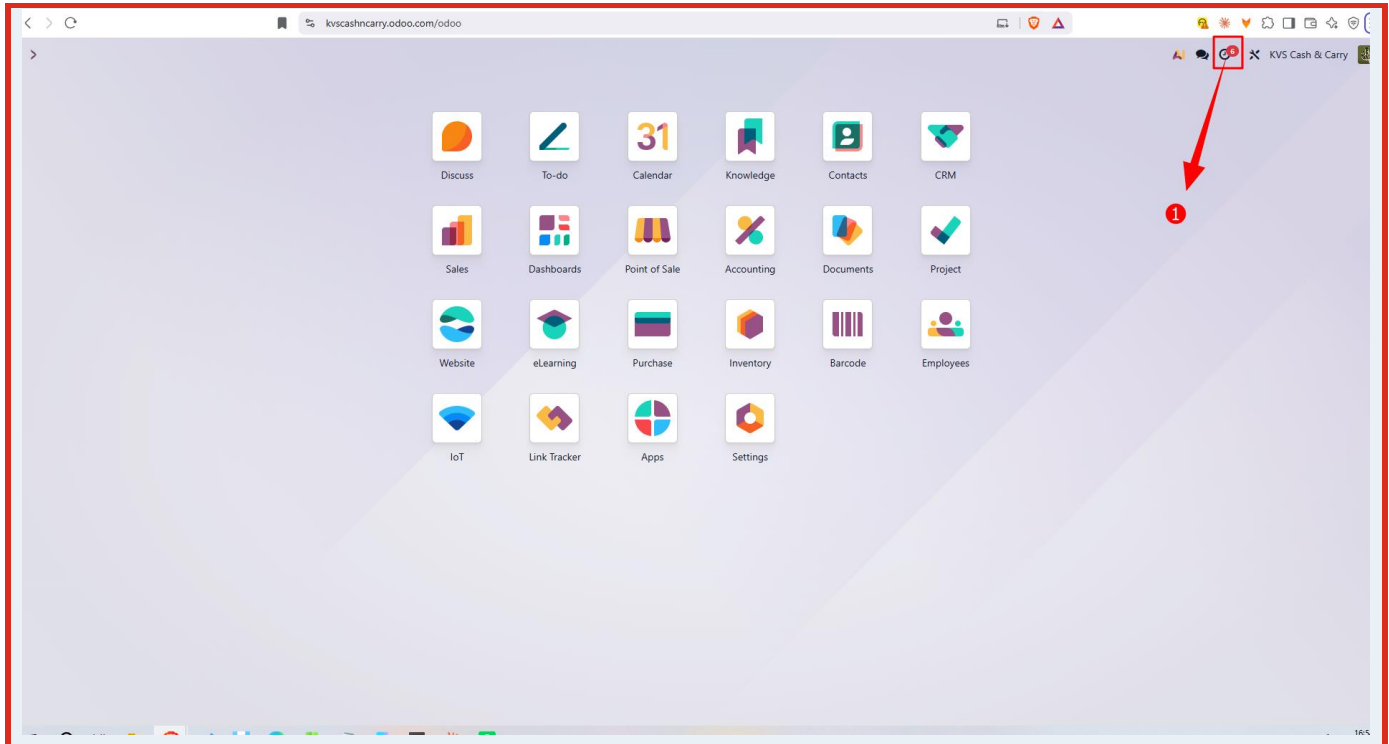

- Open POS sessions
- Activities assigned to you

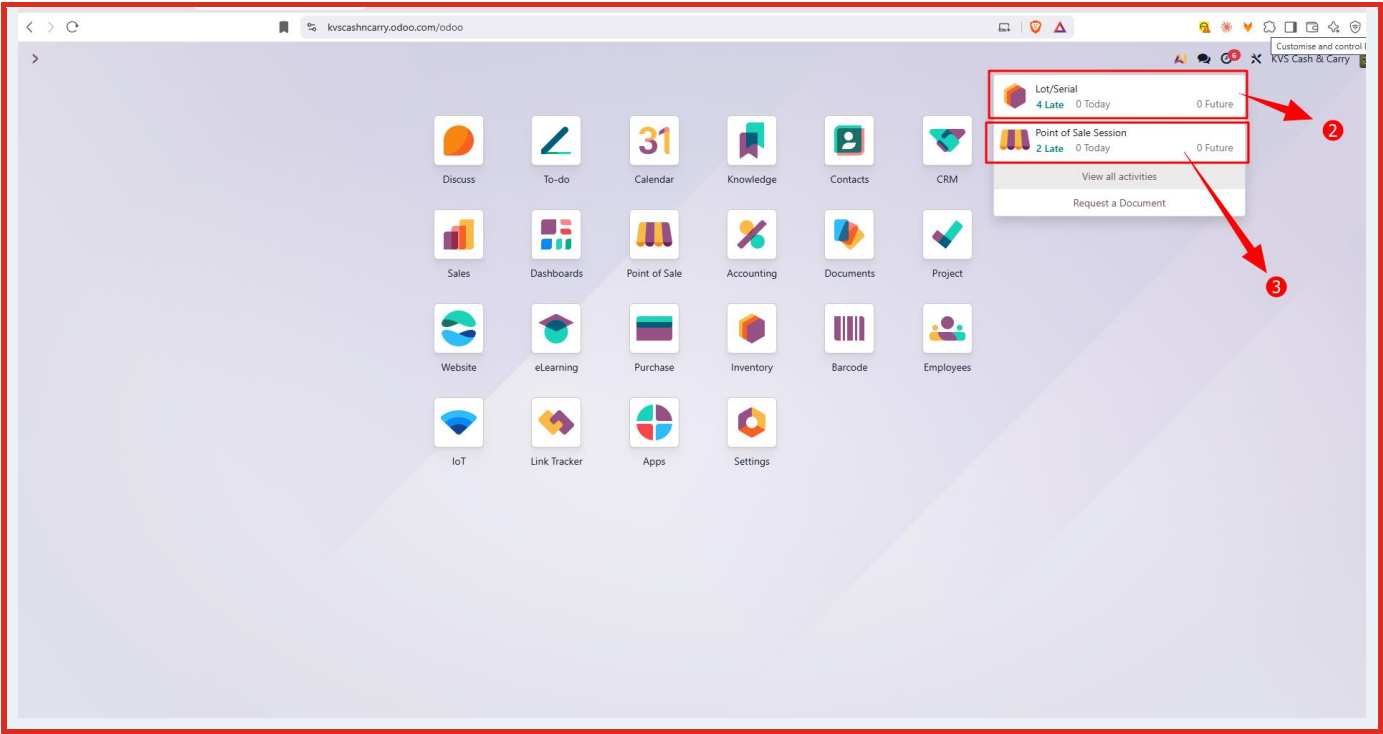

### Where to look

Top-right of Odoo, near the icons.

### What to do

1. Click the clock/activity icon.
2. Review tasks.
3. Open the task.
4. Fix the issue.

# Negative Stock Warning

## What is negative stock?

Negative stock means Odoo sold something even though Odoo thought there was no stock.

Example:

Shelf has 5 bottles, but Odoo says 0.

If cashier sells 1, Odoo may show -1.

## Why this is dangerous

It breaks:

- Lot tracking
- FEFO
- Expiry control
- Recall tracing
- Reordering rules
- Inventory value
- Trust in Odoo numbers

## Correct habit

If stock is physically there but Odoo says zero:

1. Stop.
2. Correct the stock first with a controlled inventory adjustment.
3. Then sell.

## When can Sell When Out of Stock be used?

Only as a deliberate choice for a few products.

Never use it as a blanket setting.

Avoid it for perishables and lot-tracked products.

# Daily Workflow Summary

## New product

1. Save image.
2. Fill Excel.
3. Check categories.
4. Create/check product in Odoo.
5. Add vendor, lots, expiry, eCommerce.
6. Print label if product is going to shelf.

4. Add product.
5. Send RFQ.
6. Wait for supplier confirmation.
7. Confirm Order.

## Receiving stock

1. Open PO.
2. Click Receive.
3. Open Details.
4. Generate lot.
5. Check expiry.
6. Validate receipt.
7. Stock increases.

## Billing supplier

1. Upload bill or create bill from Documents.
2. Digitize/refresh.
3. Check vendor, PO, lines, taxes, total.
4. Confirm bill.
5. Payment status appears.

## Selling

1. Open POS register.
2. Enter opening cash.
3. Scan/tap product.
4. Take payment.
5. Print receipt if needed.
6. Close register at end of day.

## Online order

1. Open Sales order.
2. Open Delivery.

3. Validate when goods are picked up.
4. Validate when goods are delivered.
5. Check invoice/payment status.
6. Cancel and refund cancelled orders.

**Stock control**

1. Use Barcode app for receipts/deliveries.
2. Count stock regularly.
3. Scrap damaged/expired stock.
4. Check reports.
5. Use reordering rules to buy before stock runs out.

# Glossary

## Product

The item sold in the shop.

Example: Ching's Secret Dark Soy Sauce, Bottle 210g.

## Barcode

The number scanned at checkout.

Example: 8901595862726.

## External ID / Internal Reference
